Hey everyone! works is back at it with another Freebie Friday for you all to enjoy! This week we're bringing you a font pack. I've hand picked 8 free fonts that I think will be a good base for you to start on, and improve your typography. You'll be getting some Serif, Sans Serif and Brush style fonts, simple clean and elegant, good essentials to build your font collection off. Note that these assets are not created by works, and thus you should always adhere to the original creators' terms of use. We will never knowingly leak private or paid content for free; our offerings are simply high-quality, free resources. Please be mindful of any licenses associated with these files, especially if you plan on using them commercially.

Please request what you want works to share next week: would you like gradients? Fonts? Brushes? works will share whatever you feel would help you improve the most.

Thanks! I've asked for this in the previous thread, some nice fonts. For next week some textures or else brushes would be great.
