I'm in mid season 4, the last season and I really like the show as it is very interesting and shows many kind of stories and thing that can happen in the future and the implications of it.

There were some episodes I didn't enjoyed that much, and there were some I just like and wish they had more episodes and it would continue.

My rate for the series is 9/10.

Have you enjoyed watching it?

With me, it seems to be a huge hit or miss with each episode. I think overall, Season 3 was probably the strongest, but Season 4 had a few standouts, like Hang the DJ and U.S.S Callister (imo), but I do enjoy watching it, probably a solid 7 or an 8 out of 10 for me.

You're right about season 3 and 4, I liked them af and my reaction about every episode was like so different

Watched the 1st episode of season 1 yesterday, maybe it's just me but it was pretty boring

Yeah man I totally loved Black Mirror.

Personally I would give it a 9/10, each episode is amazing and it just seems to get better. And I totally love how every episode is tech related and it's all futuristic..having different famous and semi-famous actors in the episodes.

Hell I think i'm going to rewatch the series again, as I enjoyed it that much. I highly recommend the show to anyone who hasn't seen it.

I chose to watch only the most interesting episodes (to me). Show itself is amazing. Most favorite has to be "USS Callister".

Totally agreed with this, loved the way they manipulated our perception of Captain Daly throughout that episode. Wrapped up in a Star Trek parody was excellent.

Sounds kinda funny but every episode and season becomes better..

I enjoyed it, not as much as I wouldve hoped for but it was okay.

I can't watch this TV show for more than 2-3 episodes in a row.
Then it just becomes way too dark

Every show portrays the concept as realistically as possible
However, the one where the president has to fuck a pig to save the princess was the weirdest shit..
couldn't believe my eyes
Even that episode contained a lesson/truth

White Bear and White Christmas were awesome it's all like ethical and makes you question things

White Christmas was gnarly. I can usually pick out plots pretty quick and am hardly ever surprised -- but that one episode got me like 5 times.

OT: Seasons 1-3 were awesome. New concepts, new ideas and well executed. It was also great that they focused on much darker elements.

Season 4: Hit or miss. Overall I liked maybe 2 episodes out of the season. Wasn't really as thought provoking as earlier seasons.

I've gotten so many suggestions from here to watch it I almost feel like I have to now.
I hear it's super good, I just haven't put forth the effort to watch it yet.
