How long do the followers stay around? and are they active

mlgnoscope - March 2, 2018, 8:18 am

I purchased 1k IG followers [REAL] 3 days ago, the followers added normally to my account (not instantly, periodically which is ok i guess), but after a period of time ~18 hours, the numbers are dropping, i don't know why, or if they are gonna refill them for me, they just did. Anyone with the same problem as mine?

You have a typo in your title, was it intentional that there's no N at the beginning?

okay i saw your order

You had 884 Followers (starter Count)

You ordered 1000 Followers

after 3-4 days passed

You have 1847 Followers

so not 200 followers man (40 max followers dropped out 1000)

and above that a Refill will make it it up for you
we are not here to fuck any one over, trust me .

if you have any issues next time just open a ticket and we will solve it for you in less then 4 hours .
