Thread: [IRC Botnet \(Helping Users\)](#)

Mastor - February 27, 2018, 9:06 am

What's good guys,

I have a considerable amount of knowledge with IRC Botnets, so I decided to sell some of my knowledge. I'm not upgraded so I can't post in the sellers section, but I also can't list a price on here.

Trouble with scanning?

Trouble with setting one up?

Trouble settling on a host?

Just hit me up and I'll list the prices.

If you're interested, and/or have any inquiries..

Or just PM me.

//Note ~ This isn't public code. Don't jump to conclusions.

#1 scanning is simple ok scrub

#2 anyone can use a fucking script

#3 anyone can use a builder or edit config files or create there own host/server

don't sell your shitty services here bc your services are garbage.

Go back to learning

bet you're using the old pma exploit.
