Thread: [Multi accounter Cryptoterian UID= 3781855](#)

J4cked - March 2, 2018, 7:08 pm

Hello. I was going to post this in the marketplace but have -rep so I can't. If I'm not allowed to post it here let me know and I'll have Staff remove it.

Anyways. It has come to my attention that this user (Cryptoterian); <https://hackforums.net/member.php?action=profile&uid=3781855> is also this user (NeverEnd); <https://hackforums.net/member.php?action=profile&uid=3621206> who is banned for being a multi accounter (Not 100% positive).

How do I know you might ask? Where's the proof? Let's take a look. If you go to one of his many sales threads you will be linked to his Rocketr page where his username is "Vervainagospoda" as seen here for example; <https://rocketr.net/buy/bf517204aa9d>

A quick Google search will lead you to many forum accounts such as Sythe. His other forum accounts are selling the exact same methods/ebooks as he is selling on here, for example; <https://www.sythe.org/threads/make-money-with-paysafecard-easy-without-much-work/> and even here you can take a look at all of his posts on bitcointalk; <https://bitcointalk.org/index.php?action=profile;threads;u=1048542;sa=showPosts>

What stood out to me was that on one of his Bitcointalk posts seen here; <https://bitcointalk.org/index.php?topic=2187892.0> he states "Bought an account once, Omniscent tracked the ip change on the next day and banned it. I bought awards and etc, so screwed up lost about 150\$ with that account"

Now you might think "thats interesting but wheres the proof that this is Cryptoterian?"

Lets go back to google and type in "Vervainagospoda Hackforums". The first result will link you to a thread called "Anyone like me wanted to become hacker"; <https://hackforums.net/showthread.php?tid=5657450>

Looking at the quoted posts we are able to see his original username "Vervainagospoda" as seen here; <http://prntscr.com/ilz6iv>

He had changed his username to "NeverEnd" but regardless its still the same account as it was before with the name Vervainagospoda.

If we go to the account; <https://hackforums.net/member.php?action=profile&uid=3621206> we are able to look at his threads and right off the bat you'll see that those threads are quite similar to those of Cryptoterian no?

Let's hop into his most recent thread, "1 on 1 mentoring"; <https://hackforums.net/showthread.php?tid=5721414>

On the bottom of his thread design you'll see that he had left his contact info including a Skype by

the name of "WISH7BOY"; <http://prntscr.com/ilza8t>

Ok so what does that mean? Let's go back to Cryptoterians account onto one of his sales threads called "Make \$500 every month from your favorite games";
<https://hackforums.net/showthread.php?tid=5788629>

If you go to the bottom you'll see that he left his contact info including Skype, by no other name than "WISH7BOY"; <http://prntscr.com/ilz9z9>

There you have it. Cryptoterian is a ban evading multi-accounter (who sells false products.) I also have reason to believe that it is infact the same notorious scammer who keeps coming back to HF and scamming good people.

Other accounts I believe are his.

<https://hackforums.net/member.php?action=profile&uid=3773001>
<https://hackforums.net/member.php?action=profile&uid=3694572>
<https://hackforums.net/member.php?action=profile&uid=3765457>
<https://hackforums.net/member.php?action=profile&uid=3769165>

That is what I believe but take in mind that I could be wrong and this guy is different but either way he's a multi accounting ban evader selling shit products.

Thanks. If I get banned for posting this so be it, people deserve to know not to buy this guys garbage.

Very nice work but you missed this one, which was one of his first accounts and was linked to his ban on NeverEnd.

<https://hackforums.net/member.php?action=profile&uid=3117625>

Also I noticed he has his Discord in his sales threads which is against the rules now.

Edit: One more account I found

You hate me cuz I have better signals than you. This J4ked is Duck Signals let me aware you. Check their IPS and see who is the real ban evader thanks.

I dont have time for negativity. You already fcked my name (for which I worked 12-15 hours every single day for 3 months). I have to rebuild what you pissed on.

Why did you change your name :)? I smell something fishy here.

Because you can see the name of the thread?. I got contacted by customers about it. Sadly for me there is no Cryptoterian anymore. This user ruined everything for his personal benefits. I am really sad, what a terrible morning. Something I built with so much effort is erased by some hater. Its ok

Edit: Just check the rep of thread owner by someone trusted like J.P. Morgan and say enough. See who is the real scammer

I don't know if you've scammed anyone but I can clearly see you're a multi accounter which you might of got away with depending on the reason of your closure, such as myself. I can also clearly see that you've threatened to pay people to rep fuck other users, I've yet too see any evidence to back up you're statement of them being a scammer. I've also not repped anyone, thanks.

Elitas - March 3, 2018, 3:18 am

Really good work OP. Nice to see that reputation doesn't always determine how valuable a member can be to the community. Keep it up! ?
