Thread: [WTS way to turning dirty xbox codes to clean codes](#)

War On Retail - March 2, 2018, 9:26 pm

I know there are some people out there who use some methods which are not so legal to obtain xbox live codes. And as we all know with those codes if you use or sell them they will get an account banned. Well I have a solution for you. I have a method that will give you a clean code for a dirty code. I call this washing the codes.

With the new code syou can sell or use them with no worries of getting banned.

If you are interested in this service or boguht codes and are worried about where they came from hit me up. I will help you out for a small fee. Price will vary on codes and amount of codes so please PM me or post here and I will get back to you.

I will say now there is a 5-10% chance the service will not work but I have had this only happen 4 times out of about 200 exchanges. SO its not even really that high of a % I just like to over estimate when it comes to faults. If it doesnt work you will get a refund.

Anyone with a brain can cleanse a Xbox code.
