Gliese - March 3, 2018, 8:06 am

I want human civilisation to end so I won't have to worry about my bullshit life anymore. I will get to run around and be free

Anima - March 3, 2018, 8:08 am

More than likely but it would be cool to live in a post apocalypse world. Sorta like like fallout ^_^ Well... Until you were to get fucked by a Deathclaw

SIM-403479 - March 3, 2018, 8:13 am

It would be cool but also you would probably be dead.

graset - March 3, 2018, 8:15 am

feels like it would be nice to see how it would be and live 1-2 years in a world like that. but that its only cuz its new and intresting.

I'd like to live in a post apocalypse world for like a week. I probably wouldn't last too long.

Yeah I would agree with this, I for example without a lighter cannot make fire in the woods and would freeze.
I'd also be really stupid from excitement try to climb up ladders and 360 no scope mutants, fail, land on my ribs break a couple and be eaten.
that'd be my luck and life.

its is a fun think tho. if u think about it we go back 50 years and it hapen then more people would last longer and u just go back more and more years an apocalyps wouldent mater to much.

Yeah. It's funny to see how many people think they would survive as though they are ninjas.

just go back some years and more people would be able to survuve but then not evryone would still

qAzrael - March 3, 2018, 8:39 am

I'd like to see what it would be like, but for only a short duration (say a couple of days). Would be cool to see how people would react to a new environment.

ven0m - March 3, 2018, 8:47 am

If you want human civilization to end, you will go with it given that you are a part of it. So, I am not sure how you will run free.

even the social aspect of it. what morals will be lost and found in this world. We can sit here and speculate all day of only a couple of aspects.

Exactly mate, there's so many things that would change due to an apocalypse. Nowadays some people can't cope without internet for a couple days, let alone not having it at all lmao. But yeah, we could sit here all day discussing the different aspects that would change.

graset - March 3, 2018, 9:05 am

however it is fun to speculate

If human civilization were to end, you'd be included in that.

Renowned - March 3, 2018, 9:31 am

So because you're so upset with your life you want everyone else's to go to shit? You have a very selfish mindset, seek help.

Sajuuk - March 3, 2018, 9:37 am

First of all, you won't get to run around and be free. You'd just be dead, along with everyone else.

I don't mean I want all humans to go extinct. I mean I want all governments,economies,and societies to collapse.

Ninja - March 3, 2018, 10:00 am

Yes it is weird. Your thoughts shouldn't impact other people.

This is true, the people back then had to scavenge for food and shelter while trying to just survive. we rely on too many things to be able to do A+ in a apocalypse.

I know for sure I wouldn't survive at all. That would be the only situation where I honestly would choose to end my own life, it wouldn't be worth it for me to try and continue.

BrotherTooTurnt - March 3, 2018, 10:38 am

You are a modern day privileged and pampered white boy who watches to much tv and thinks he's god. If shit ever hits the fan YOU will be the first ones to die.

spradebassen - March 3, 2018, 10:41 am

just end your life.. its that easy

thank you in advance

Cagey - March 3, 2018, 11:18 am

I wouldn't be surprised if this happened and I would also like this to

JoshAllen - March 3, 2018, 12:07 pm

I don't think this would happen honestly, nor should you really want it.

This is so true. Time for a CrazyRussianHacker YouTube video to learn how.

?BowmanBot? - March 4, 2018, 5:50 pm

Not at all. I feel the same way.

It would be really cool to live in a post-apocalyptic world. It would have its downsides but I do fantasize about it all the time.

oh yeah lol it almost seems like all fun comes with horrible down-sides.

Most fun is illegal

fun fact

"It is unlawful to shave in the center of main street in Mississippi."

There is a state with a law that makes it illegal for men who have mustaches kiss women in public. There are some weird laws out there.

V?rt - March 4, 2018, 7:12 pm

I'm sure everybody has wished it to happen. It would be really cool and all until like 2 months in. Then I'd hate it. It'd just be annoying.

I actually enjoy living out in the wilderness, hunting and finding my own food. I would not mind it at all.

Shorta - March 4, 2018, 7:20 pm

It would be amazing to finally break free of the chains of mass manipulation, but the world is just gonna rebuild into perhaps much worse.

Wouldn't it be hunt or hunted situation all over again?

d3 ? - March 5, 2018, 2:15 am

It would be fun for the first 20-30 days before you die of starvation, dehydration or you become infected.

Domme Merrie - March 5, 2018, 7:22 am

Well it makes sense because you'd be relieved of your current worries, but a whole lot of new worries will start.

SIM-2875347 - March 5, 2018, 8:25 am

Everyone thinks they could survive in that type of world but it's definitely harder than it looks like. Video games and tv shows make it look too easy. In reality living in that type of world would just suck.

Exactly. You will literally have to make everything. From food to shelter to medicine to hunting equipment.

I would be screwed, I built a bird house in 7th grade work shop.

Correction the teacher called it a bird house but I knew deep down what it really was, a death trap.

I can't construct things with wood.

It would be cool short term to have the experience, but you would miss what you had a lot.

CYB3RM4N - March 6, 2018, 10:58 pm

But what if you end up being a casualty in the apocalypse?

This aint no TV show dude.

If civilization falls the way we know it, shit will become rough REAL quick.

First it will be a rush for supplies, looting and raids for medical, food and other key essentials.

Second, it will come down to protecting your assets. When resources get thin, people get desperate, and we as humans we will kill one another for what others have.

Finally, lack of law or enforcement will cause rifts, and gangs of bandits...

You think the world is dangerous now, try dealing with it with no centralized government....
