Thread: [Build Your Own SILENT Miner in 10 minutes!](#)

tommisnigg - March 4, 2018, 10:35 am

Do you want to or are you interested in miners or do you want to make a silent miner yourself? If yes, then reply here & pm me and i will try to hit you up asap ?

This will literally take you like max 20 minutes the very first time you do it, but after that it wont take you longer then a few minutes. This isnt anything that special but a pretty easy way to build yourself a miner.exe that run's silently on the background :)

Only going to be giving this out to upgraded members, if you are not upgraded and really want this reply here and i might send it to you :)

Deflate - March 5, 2018, 1:02 pm

Take a good look at the date of the last post, its from 2018. This is what we call gravedigging. Besides that, OP has been closed.

If common sense is common, why are you without it?
