Thread: [Steam Games Shop \(PUBG \\$18.99\) ANY GAME ON STEAM FOR CHEAP!!! CHEAPEST ON HF](#)

HypoLiize - March 5, 2018, 6:30 am

Hello all I sell accounts with games pre-loaded on them for the agreed upon price. You will receive your account details and within the account will be your payed for game. (VOUCH COPIES WILL CONSIST OF ME GOING FIRST WITH THE TRADE FOR TRUSTED MEMBERS ONLY, AND YOU WILL STILL PAY.)

PLAYERUNKNOWN'S BATTLEGROUNDS

Price: \$30.00 18.99

Stock: Made upon request

Delivery: ~20 minutes after I see the placed order.

OTHER GAMES:

I will do other games (any game on steam) just ask about my prices. Usually I will charge about half of what the game costs. Thanks.

FAQ"What payment do you accept?" I accept PayPal Friends and Family, and ANY CRYPTOCURRENCY.

"Can the games be added to my account?" No It cannot be added to your account. You can however change the email and password on the steam account and use 2fa if you like.

"Are these carded?" No these are not carded nor cracked. These are your accounts and they're fresh.

"(person) does this same service for \$12" Anything less than what I charge is most definitely either carded or cracked with a high chance of ban, and on top of that it is someone else account which means you can pick your own name like you can with me.

TOS: I am not responsible for any ban you bring upon yourself. Each game and account is fresh with 0.0 hours. Any bans in game are your responsibility and any chargeback will result in a scam report.

I don't mean to sales thrash, but i think your TOS, Quote:TOS: I am not responsible for any ban you bring upon yourself. Each game and account is fresh with 0.0 hours. Any bans are your responsibility and any chargeback will result in a scam report.

, is quite shady. If the games are not legitly purchased from steam, they can ban the accounts, as far as i know.

And if a user purchases from you and then his account gets banned you are saying you are not responsible, how >?

Plain and simply put, any IN-GAME bans from (PubG specifically) for Aimbot or other mods, I'm not going to replace your account. Each account is Legitimately purchased through steam and will not be banned on steam. However on the case that you get banned for something in game, I do not cover that.

Edit: your account is a multi lol

Edit: your account is a multi lolSo you will give the users the Purchase proof so that the account cannot be recovered by you ? Just point these things out man, it will help with your sales i think.

Yes i know, if you take time to go to my profile and read my Introduction thread you will know that. I was a upgraded member here back in 2010, but i left the forums due to some real life work, and omni closed all the inactive old accounts.

I didn't find anyone doing it cheaper than 18, but thank you for your interest.

Not trashing but PUBG directly from steam is cheaper than your rate in my country. GLWS

Triestri - March 5, 2018, 11:41 am

Are these carded?

Can you prove they are legit?

Why is it that everyone who trashes a thread starts the comment by "not trashing but"

They are not carded and will not be banned or anything related to that. What you are buying is an account that has been gifted pubg. Nothing blackmarket about this at all.

Triestri - March 5, 2018, 11:45 am

Can you add games to my account, not some other account
