Thread: [Hiring someone to do some grindy work for me \(Paying decent\)](#)

CryptoSid - March 5, 2018, 4:36 pm

This is purely 100% labour work, i will provide everything.

What i'm looking to get done is essentially verify discord accounts, i need these for testing for some of my bots.

What you will need to do:

Phone verify the accounts (I will provide the method/funds to do so)

Email verify the accounts (I will provide the method to verify several discord accounts with a singular email)

Gather the token (If you don't know how I will teach you)

Add a profile picture (Pretty self explanatory)

At the start this may take up to 7-8 minutes, but once you get the hang of it, i've been able to do each account in around 3-4.

I will be paying \$0.5 per account verified.

At 50 accounts expect a tip.

At 100 accounts expect an even better tip.

If you're willing to do this shoot me a dm, cheers!

(Side note: If this is in the wrong place, my apologies, could you please direct to the right one?)
