Thread: [\[\\$20\] NEW Shell Gas Method + Tool \(Auto-buy: PayPal, Bitcoin, ETH\)](#)

the6ix - March 6, 2018, 3:16 pm

Stop buying codes from shops, and learn how to make as many codes as you want for free gas!

This method goes over everything on how to get \$0.01 per gallon at any shell gas station! (Except Illinois)

We have also included a tool to use so you can pretty much automate the whole entire process.

This is the new and improved method and this is 100% working!

Price: \$20

<https://selly.gg/p/83153645>

We are accepting PayPal, ETH, and BTC

You will need to invest around \$10 after purchasing which is required.

If you bought before patch, you will not be refunded; but if you purchased after the patch, you will be refunded accordingly.

Opening a dispute will result in a scam report.

Dextral - March 6, 2018, 3:19 pm

This is very interesting, cost is about two codes from other people lmao.

How long does a code take "to make?"

Don't even come at me like that, you're the one that messaged me and kept begging for the method and when I told you no to a vouch copy, you got mad and then asked for an account. Don't come at me with exit scamming. Why would I even exit scam, especially over a silly 20\$.

Invalid, gamefreak and ben were all selling the method around this price too.

?Nuski - March 6, 2018, 6:52 pm

OP you need to fix the tool or something, it isn't working properly. It's removing my credits, but isn't showing the email and passwords for the accounts it's making.

Neil - March 7, 2018, 4:57 pm

Bought this last time, got patched within 2-3 days of purchasing it, lol rip. Hopefully, it works for longer this time!

KrazieDrifts - March 7, 2018, 5:15 pm

Zender - March 7, 2018, 6:40 pm

Cassanova - March 8, 2018, 2:39 am

Refund please this program is coded bad.

Rezy - March 8, 2018, 2:49 am

Does this work in south africa?

2SLiCkZ - March 8, 2018, 4:09 am

So this shit straight up doesn't work? ?

Whoever bought this should speak up and let us all know.

Michael_ - March 8, 2018, 7:16 am

I'd like a refund on this OP, the program doesn't work! It's just taking my credits from 2captcha (which is required to purchase) and giving nothing in return. Program doesn't even let you know if it's working or not.

718b - March 8, 2018, 9:14 am

no refunds he has attitude when u ask for money back

National Security Agency - March 8, 2018, 11:36 am

I am sending this to you because you've sold me a non working method. You can either (1) refund me (2) give me working codes (3) or have a PayPal dispute created as well a scam/community alerts. You have 24 hours to refund or compensate me. Failure to do so will result in severe consequences if that's how you want to look at this.

Thank you

Highly doubt he will refund any of you.

He's been selling unworking methods for awhile now.
