Get an Xbox One X with Destiny 2, GTA 5, extra controller for \$500

I have been looking for an Xbox bundle that I like and I've finally found it. I really like that this bundle has an extra controller.

Since I signed up for eBay bucks they also gave me back 6% cash back that equals to 30\$

If you go to best buy, they let you choose if you'd want a free game or a controller... and it only costs 250\$.

They had a Destiny bundle as well for 250\$, 500 GB storage. I think you overpaid.

I see no deal like this for an Xbox one x anywhere. Cheapest are all 500\$ just for the console.
