How many ports can be used on the RDP?

Rajjhajj - March 7, 2018, 6:25 am

Wondering if this would work for botting supreme or adidas. How many times could you use the same ip?

niwho - March 7, 2018, 8:17 am

Single IP or can re-dial?

2SLiCkZ - March 7, 2018, 8:39 am

Everytime a proxy rotates, is it always a clean residential IP each time or some blacklist IPs?

New IP on each request.

Yes it would work perfect.

Do you provide the proxy it uses? Or is it automatically setup and rotates itself

Would like to take the vouch copy if still available.
I will leave a review.

I've always been interested in testing your services, never heard back enough.

Would love a vouch copy of the rotating residential IP.

Marshmallow Man - March 7, 2018, 3:58 pm

How many IPs are we granted & are we able to choose locations?

thank you !

Lextian - January 27, 2020, 8:05 pm

Hey buddy, how many mins or hours does the ip rotate and does it give a clean ip on each rotation, also can this be used for spotify streaming or any other streaming without the need for proxies?

Darkie Smith - January 27, 2020, 9:24 pm

Is the RDP exclusive, is it hacked or what?

And are the residential proxies hacked or rented? And can I pick where the one I am using is at? Say I wanted to be on a facebook from a certain area in a certain state, for atleast 1-2 days. It won't be flagged in any way prior to me getting it?
