Thread: [\[Private Method Mentorship\] JUUL - Make 100+ free juul pod coupons per day \[AUTO\]](#)

Juicy - March 8, 2018, 5:20 pm

Old thread design:

First of all, this is a completely private method that is easy money so understand this is not cheap.

Some basic info:

-Partially automated, I have set this up in a way so that the user has to do a very little amount of work, and receives a high reward. AKA 30-50 codes for free juul coupons per 20ish minutes work, easy work too.

-Private. This method is not being sold by anyone else on the forum. We will teach you via skype or teamviewer how to do this method, so there won't be any learning curve or questions that arise later.

-Bulk. And I do mean bulk. I've been receiving orders for 10, 25, even 50 codes at a time and can easily supply them. At bulk rates, one 50 code order is \$250, which is about 20 minutes work for you.

-Easily make your money back. I'm talking in a day or two assuming you just do the method.

Method is saturatable yes, so I am limiting sales to a few users. These must also be users that I will trust not to share this method or abuse it (300+ codes a day)

This is not an ebook. You'll be teamviewing or Skyping my partner and I as we teach you step by step how to set this up. You won't fail as we will be there to help you set it up until it works.

Price for mentorship: \$600 FIRST COPY, \$800 2nd copy, \$1k BTC 3rd copy rate can be negotiable depending on how trusted you are.

Each code provides a free pack of juul pods. This is not black hat, but I guess it would qualify as greyhat. However no trouble would come from this.

PAYPAL OR BTC NOW ACCEPTED

First Purchase:

Method is still available. It has been perfected and you can obtain bulk codes today.

My partner and I are happy to answer any questions should they arise or before you buy.

This is not any sort of public method, and you can even ask the other sellers for juul pods on here that they do not have the method to receive bulk at a time. 20 minutes can get you 30-50 codes.

Contact me today to make a deal for the first copy

kokoomong - March 19, 2018, 3:18 pm

I just feel that the first copy is a little bit outrageous for the price. I know you can make \$250 per 50 code bundle, but that's only if you find a buyer in person/online.

It would also be nice to see all the profit you made from selling these. Whether it be cash, btc, paypal or what not.

I'm sorta interested, but don't have BTC atm.

Not hard to find buyers, I literally just sold 50 codes within 30 minutes. Happy to teamviewer and show profits.

There are dozens upon dozens wanting bulk, sometimes I can't even fulfill them all.

Willing to accept PP after I can confirm you are legit.

\$600 is a very fair price, that being said I'll lower to \$500 for first buyer provided he leaves a detailed review after purchase.

Purchased this method just earlier today. Juicy was super fast to respond to all my messages, and both him and his business partner offered perhaps the best support I've encountered here on HF. They walked me through every step of the process, and helped me get fully acquainted with the software and method. It's a bit of work to set up, maybe 1-2 hours at most. However, the returns are more than worth it :). After setting it up, the method is essentially autopilot -- requires maybe a few minutes of work a day to maintain. Codes are expected to arrive a few days after setup, and daily from then on. Although expensive, this method is incredibly powerful, and could easily make you thousands. Since I just set this up I haven't gotten my codes yet, but I'll be sure to post an update once I do. Thank you Juicy and team for an excellent product!

Just wondering, if the method is saturable, does that mean it can be gone by tomorrow or the day after all of a sudden? Since investing that much money and knowing that there are no refunds and what-not doesn't feel so safe on the buyers side. Thanks

We already have a backup method, and with my seven years on HF I feel as if I have earned enough credibility for the buyers to know if the method was patched right away I would make it up to them. Whether that be a refund, or a new working version of the method, the buyer will be happy

Im not really sure how these codes work. Could I get 100 codes and ship all those pods to my doorstep? Also does this include the actual device?

Taking two mentorees this weekend. \$600 per session. \$600 will be made back within a week at max, and straight profits from then on iout. Extremely easy.

I'll ask some past buyers to posf their experiences here tomorrow.
