Thread: [{BEST ONLINE INCOME} Shopify Store PRO \[Worth \\$597+\] + BONUSES \[Worth \\$5335\]!](#)

RAT - March 9, 2018, 9:26 am

Hello everyone! ?

I am giving away Shopify Store PRO away for FREE! Just post under this thread if you are interested and I will send you a Download Link via PM.

I'll have to admit that it does have some saturated information, yet if you go through the whole course it can benefit your online businesses a lot! :)

WHY HF L33T+ ONLY? First to show appreciation for donating to HF.net & 2nd to avoid getting it leaked everywhere.

The Whole Course contains 8 modules:

Spoiler ([Click to View](#))

Planning & Research - In this module, you will learn how to properly plan out your business before ever opening your store – from niche selection, niche validation, selecting your store type, store branding, and more – get this right, and you'll be setting yourself up to win from the get-go.

Store Set-up - In this module, you will learn exactly how to set up your store when it comes to selecting your Shopify plan, configuring your payment preference, shipping, theme, domains, pages, products, collections, and all the little settings you'll need to configure properly to ensure your store runs like a well-oiled machine.

Sourcing & Fulfillment - In this module, you'll discover the three best ways to get and add products to your store and the best hacks and tricks Nick has discovered for making it drop-dead simple without costing you an arm and a leg.

Facebook Advertising - In this module, you will learn how Nick is getting traffic from Facebook including how to set up your fan page, the Facebook Business Manager, conversion tracking pixels, ad creatives and strategies, and my front-end ad strategy etc.

Back-end Advertising - Here you'll learn simple, yet devastatingly effective strategies you can use for recapturing lost sales, retargeting visitors who didn't buy, and the automated email marketing sequences you can set and forget to boost your monthly income.

Advanced Facebook Tracking - This is the stuff that NO ONE else is teaching. After this module, you might just go strutting around calling yourself a Facebook Ads Expert because you'll going to learn everything you need to blast past your competition when it comes to Facebook ads. You'll discover the Facebook Super Pixel, how to sync your entire catalog with Facebook, and even how to run dynamic product ads for your store. This stuff is insane.

Day-to-Day Operations - Learn how to run your business like an executive, how to ensure things continue to run smoothly, and how to care for your customers like a Fortune 500 company.

Expert Interviews - In this module you'll hear from several other e-commerce experts as they reveal their insightful expertise and experiences in response to some direct, secret-forcing questions.

abc123weed - July 18, 2018, 8:20 pm

It'd be really great to have this method. I was browsing around and looking at e-books with no intent to buy them but I really enjoyed reading your responses to those threads where you would try to make it clear to everybody else including yourself the basics on how the e-books would work and whether or not they are truly worth it. Since you've done so much great work in the past I think a method you endorse would work very nicely. I also did see how you put HF L33T only, and I have to admit I am a leech on this forum most of the time and never put anything back into it but if this method is truly a way for me to make some money I'd gladly purchase L33T with that money and put some more time back into the forum to show my gratitude for the free information given to me over the years to help myself become wiser. (I understand if you don't want to send me the method, however, since there is still a possibility as you don't know me and I have not much of a visible history on this forum that I could leak this, I understand).

Hello. I do not have an uber/leet/epic upgrade, but it would be really great if you would send it to me. I am planning to launch my shopify store soon and I am reading many methods and e-books before I do that. This one would really help me since it seems really helpful and professional. I do not intent to share it elsewhere or sell/resell it in any way. Thank you and I hope you take this in consideration ?

Hello everyone! ?

I am giving away Shopify Store PRO away for FREE! Just post under this thread if you are interested and I will send you a Download Link via PM.

I'll have to admit that it does have some saturated information, yet if you go through the whole course it can benefit your online businesses a lot! :)

WHY HF L33T+ ONLY? First to show appreciation for donating to HF.net & 2nd to avoid getting it leaked everywhere.

The Whole Course contains 8 modules:

Spoiler [\(Click to View\)](#)

Planning & Research - In this module, you will learn how to properly plan out your business before ever opening your store – from niche selection, niche validation, selecting your store type, store branding, and more – get this right, and you'll be setting yourself up to win from the get-go.

Store Set-up - In this module, you will learn exactly how to set up your store when it comes to selecting your Shopify plan, configuring your payment preference, shipping, theme, domains, pages, products, collections, and all the little settings you'll need to configure properly to ensure your store runs like a well-oiled machine.

Sourcing & Fulfillment - In this module, you'll discover the three best ways to get and add products to your store and the best hacks and tricks Nick has discovered for making it drop-dead simple without costing you an arm and a leg.

Facebook Advertising - In this module, you will learn how Nick is getting traffic from Facebook including how to set up your fan page, the Facebook Business Manager, conversion tracking pixels, ad creatives and strategies, and my front-end ad strategy etc.

Back-end Advertising - Here you'll learn simple, yet devastatingly effective strategies you can use for recapturing lost sales, retargeting visitors who didn't buy, and the automated email marketing sequences you can set and forget to boost your monthly income.

Advanced Facebook Tracking - This is the stuff that NO ONE else is teaching. After this module, you might just go strutting around calling yourself a Facebook Ads Expert because you'll going to learn everything you need to blast past your competition when it comes to Facebook ads. You'll discover the Facebook Super Pixel, how to sync your entire catalog with Facebook, and even how to run dynamic product ads for your store. This stuff is insane.

Day-to-Day Operations - Learn how to run your business like an executive, how to ensure things continue to run smoothly, and how to care for your customers like a Fortune 500 company.

Expert Interviews - In this module you'll hear from several other e-commerce experts as they reveal their insightful expertise and experiences in response to some direct, secret-forcing questions.

... & Bonuses

The Social Engineer - January 14, 2019, 1:13 am

Thanks for the share.

Can definitely vouch for the value of this. With over 13 hours of video tutorial content, 1 1/2 ~ 2

hours of expert interviews on audio, and several hours worth of e-books, The main course alone could easily be considered worth much more than \$597. I found that much of the content is still relevant. Anything that was outdated was fairly easy to find answers to online.

rkutrapoli - January 15, 2019, 2:57 pm

Hello everyone! ?

I am giving away Shopify Store PRO away for FREE! Just post under this thread if you are interested and I will send you a Download Link via PM.

I'll have to admit that it does have some saturated information, yet if you go through the whole course it can benefit your online businesses a lot! :)

WHY HF L33T+ ONLY? First to show appreciation for donating to HF.net & 2nd to avoid getting it leaked everywhere.

The Whole Course contains 8 modules:

Spoiler [\(Click to View\)](#)

Planning & Research - In this module, you will learn how to properly plan out your business before ever opening your store – from niche selection, niche validation, selecting your store type, store branding, and more – get this right, and you'll be setting yourself up to win from the get-go.

Store Set-up - In this module, you will learn exactly how to set up your store when it comes to selecting your Shopify plan, configuring your payment preference, shipping, theme, domains, pages, products, collections, and all the little settings you'll need to configure properly to ensure your store runs like a well-oiled machine.

Sourcing & Fulfillment - In this module, you'll discover the three best ways to get and add products to your store and the best hacks and tricks Nick has discovered for making it drop-dead simple without costing you an arm and a leg.

Facebook Advertising - In this module, you will learn how Nick is getting traffic from Facebook including how to set up your fan page, the Facebook Business Manager, conversion tracking pixels, ad creatives and strategies, and my front-end ad strategy etc.

Back-end Advertising - Here you'll learn simple, yet devastatingly effective strategies you can use for recapturing lost sales, retargeting visitors who didn't buy, and the automated email marketing sequences you can set and forget to boost your monthly income.

Advanced Facebook Tracking - This is the stuff that NO ONE else is teaching. After this module, you might just go strutting around calling yourself a Facebook Ads Expert because you'll going to learn everything you need to blast past your competition when it comes to Facebook ads. You'll discover the Facebook Super Pixel, how to sync your entire catalog with Facebook, and even how to run dynamic product ads for your store. This stuff is insane.

Day-to-Day Operations - Learn how to run your business like an executive, how to ensure things continue to run smoothly, and how to care for your customers like a Fortune 500 company.

Expert Interviews - In this module you'll hear from several other e-commerce experts as they reveal their insightful expertise and experiences in response to some direct, secret-forcing questions.

... & Bonuses

I'm very interested in this method.

Just asked you if you can do it, I am sorry if it hit you in the wrong spot and you felt that it's necessary to write a whole post about it under my thread.

As you clearly see from the PM, I was gonna send the shit anyway in a few days - was just

wondering if this particular lad would be interested in helping me if I sent him it straight away. Will you take it easy now? No need for some public drama out of nowhere. Read the whole PM through before you start ranting on me, please.

Have a superb day.
