I will 1 on 1 mentor you to setup a silent miner + acquire and manage bots in a way that you can potentially turn \$1,000 USD into \$6,000 USD a month with little to no maintenance.

My service charge is \$750 or \$375 and 10% of the bots.

You will need voice communication - simple as that. No bullshit, no fucking around. You're either in or you're out. I have helped many people IRL and online to do this but I feel those of you who are interested should be making what i'm making.

PM me if you are interested. No fucking around.
