Thread: [How fast is your browser? \(Browser speed test\)](#)

Shorta - March 12, 2018, 5:56 am

Hello my fellow hackers, today we are going to take a moment to see how fast your browser is. This is done by going to the following link: <http://www.speed-battle.com/>
You might want to refresh up to 3 times or more for best results.

Chrome

Brave

Firefox

Now you might just want to get the HTML code or picture the little one.
(Brave)

ven0m - March 12, 2018, 5:59 am

My score was 713.27 for Google Chrome.

Renowned - March 12, 2018, 5:59 am

Chrome:

Not a bad score considering how hungry it is.

Could you please take the test on Firefox? Considering that score for chrome would love to see what your Firefox can do!

Damn.. Not too shabby tbh.

Haseo™ - March 12, 2018, 6:40 am

I didn't realize that firefox was the fastest browser from what I was reading I thought the brave browser was suppose to be the fastest this is impressive.

wraxu - March 12, 2018, 6:49 am

Eh I'm on android so its a bit unfair....

Why would you even? lol.

Riyu - March 12, 2018, 6:52 am

I still refuse to leave Safari :(

Yeah uses Mac.
Doesn't have that bad of a score though for safari.
Still blows my mind firefox is killing it.

M1L3NK0 - March 12, 2018, 9:42 am

I'm using Firefox. It's so much snappier than Chrome

Doxycyclin - March 12, 2018, 9:43 am

1120 for firefox latest build

Cryzonservices - March 12, 2018, 9:44 am

After seeing this rates i guess mine is slow af.. LOLolol

qAzrael - March 12, 2018, 9:50 am

My score was 1161.2 for google chrome, not too impressive :/

jeez guys sorry it was mobile, I posted it quickly during class so I didn't have time

Deflate - March 12, 2018, 10:21 am

Anyway i dont bealive in that site, also there is an google ads and other stuff which makes the browser little slower when loading.

SIM-2875347 - March 12, 2018, 10:24 am

I've been considering switching from chrome, I love it but sometimes it slows down or stuff just doesn't load. Plus it eats RAM for breakfast

LilUziVertical - March 12, 2018, 10:39 am

Google Chrome

Firefox Quantum

I might have to switch to Firefox now lol

Adblockers my friend

Also don't know what's not to believe, you can still compare it to the browsers test as it's the same test.

ven0m - March 12, 2018, 11:33 am

I guess I am one of the few who scored less than 1K in PC platform.

wkmin - March 12, 2018, 12:14 pm

715 for mozilla.

is it good?

I believe these tests especially if you are using adblockers.

I am glad I found this I still use iceweasel.

Iceweasel? Never heard of that before.

wraxu - March 12, 2018, 2:24 pm

On my PC I get 1500 (chrome).

I have 4 adblockers and a high-end PC so idk if that affects it.

Clona - March 12, 2018, 2:25 pm

The overall score for google chrome is 1005 for me, I refreshed several times and it mostly stayed in the 990-1100 range. I'm on a laptop so that's probably why mine is lower then average.

Takehito Morokuzu - March 12, 2018, 5:12 pm

346 on my android device on chrome. I'll test on my pc tomorrow

Mr. Robot - March 12, 2018, 5:22 pm

Running outdated firefox in a virtualmachine.

<http://browserbench.org/> is what you should be using.

SIM-2875347 - March 12, 2018, 5:22 pm

Finally back on desktop to do the test.

Chrome -

Firefox -

Sheeple - March 12, 2018, 5:28 pm

1047 with chrome on my laptop.

Would post a pic but prnt.sc doesn't let you copy image urls anymore??

Snipping tool + imgur.

BrotherTooTurnt - March 12, 2018, 6:00 pm

120.47

224.44

18.29

363.2

These are the results on my iPhone 6

Ninja - March 12, 2018, 10:01 pm

Hmm never did this before. I'll do a test when I get back home.

Go to your prnt.sc link, Right over the image, inspect element, and then 2 lines up you should see the link to the image.
