Thread: [\[Official Group\] Terminal - Recruitment #1 - Loungers](#)

SIM-3323508 - March 13, 2018, 4:18 pm

I recently purchased Terminal, I will be rebranding at a later date but in the meantime it will be a lounge group (more than likely will after the rebrand as well)

wit - March 13, 2018, 4:20 pm

I'd choose the red pill. My life is pretty mundane day to day so i'd be willing to experience the other side.

ohxerxe - March 13, 2018, 4:21 pm

I chose red knowing only 2 things.

#1 The colors of the choices I get.

#2 Red is my favorite color.

Riyu - March 13, 2018, 4:25 pm

I'd choose the red pill. I would like to experience something new.

Prødigy - March 13, 2018, 4:26 pm

Tbh prolly the blue pill, I just can't see me leaving everything behind

?BowmanBot? - March 13, 2018, 4:26 pm

I will always take the opportunity to seek out and understand information. I am one who loves learning, no matter how devastating the truth might be.

It will be the red pill for me.

Narrate - March 13, 2018, 4:36 pm

The best of bros now.

You are both rebels, now be rebels together!

Biggy - March 13, 2018, 4:40 pm

I'd take the red pill because screw comfortability, rather the harsh reality.

Crystallize. - March 13, 2018, 4:55 pm

I'd also take the red pill to see and experience new stuff.

The Director - March 13, 2018, 5:53 pm

O_o I'd probably mix the two into a purple pill.

zSerity - March 13, 2018, 6:58 pm

The Director - March 13, 2018, 11:30 pm

Seriously though, I'd choose the red pill because a routine is boring and it's always nice to spice it up and see the other side of things.

The-Fluffy-Kitty - March 14, 2018, 1:16 am

Red Pill because I'm a curious cat ?

passwords - March 14, 2018, 2:07 am

I'd take the red pill.

I believe that we all feel that something is not right. We can't put our finger on it.

But it's there, and I am sure we all want to experience that void of a hole we all call a reality.

Wespa - March 14, 2018, 2:11 am

I'd choose the blue pill because lifes already shit enough without knowing the truth.

Nebo - March 14, 2018, 6:20 am

I'd take the red pill, bravely go forward and get to know the truth. Also, relieve boredom!

R3VC0N - March 14, 2018, 7:36 am

So i'll take both and see what happens, probably will die but.. Curiosity is a bitch

Yandere - March 14, 2018, 7:40 am

I would pick the red pill, mainly because living that type of life seems to be amazing. Compared to my boring university style life. I just go to school, bang my girlfriend, and play video games.

Haseo™ - March 14, 2018, 6:16 pm

I'll be taking the red pill as there is much more out there for me to learn so obviously I need to be moving forward for that to transpire.

Meow - March 14, 2018, 7:53 pm

Red for sure, just so I can experience something new & never seen before.

Kosmos - March 15, 2018, 12:01 pm

Swip3r - March 15, 2018, 2:17 pm

Maaaaan I'd pick the fuck out of the blue pill.

I have no interest in changing the world nor finding "the true meaning of life" or anything in between, as long as I can live good, eat good, fuck good, and drive nice cars.. I'm content.

And that's all that matters.

Internet Security - March 23, 2018, 12:32 am

blue pill because iv already experienced different drugs

Vegeta - March 23, 2018, 9:32 am

Red pill, because my life isn't very eventful as is and I would be more than happy to experience something new just for the adventure.

Bear - March 23, 2018, 9:34 am

I will take both and see how the overdose feels like.

Otis??????????????? - March 23, 2018, 11:32 am

SupremeLV - March 24, 2018, 3:34 pm

I would take the red pill because I like the challenge and the adventure! I feel like it would suit me better tbh!

The GRim - March 24, 2018, 3:35 pm

Red pill because I love adventure..

P.S : Haven't been in a group in a while.

CraftyBot - March 24, 2018, 7:49 pm

I take the red pill to continue my adventure as I wouldn't want to continue living a boring ass life when I can have an adventure.

Sooty - March 24, 2018, 11:21 pm

It all depends on where I was at in my life; if i hated it or couldn't stand it - I'd take the red. But if I enjoyed my life and couldn't leave it - I'd take the blue. I'd probably end up choosing the red pill just to change things up, and educate myself on this unknown intricacies.

oRequiem - March 25, 2018, 5:51 am

I'd chose to red pill because everyone says "Don't take the red pill" and I'm not scared of it :)

?lex - March 25, 2018, 7:39 am

The red pill. I wanna go on an adventure. I wanna explore what he has to offer. I am just that guy.

MindFreak™ - March 25, 2018, 10:22 am

I choose the red pill, I need to get a better and new feeling than current one, I want to fly over Mars :D

The.Businessman - March 25, 2018, 3:00 pm

The red pill, It's better to live one day as a king than a thousand as a sheep.

Almonds - March 25, 2018, 3:24 pm

I would choose the blue pill, so you know what you're getting yourself into.

Although, the red pill is the answer ?

Agency - March 25, 2018, 3:32 pm

Id take both the red and the blue because nobody's ever going to influence my opinion. Yolo whats the worst that could happen

???t? - March 27, 2018, 1:34 am

I'd choose red purely to gain more knowledge and skill. Nothing beats the human brain.

Darc - March 27, 2018, 1:43 am

Red Pill, because I wanna see how far the rabbit hole goes and not go back to an average life but stay in that wonderland.

MrHappy - March 27, 2018, 3:08 am

:Application:

Going to be getting active again in the forums, this place will be a good start again.

What pill? Red Pill, Why?

Red is a nice colour and red represents knowledge and freedom.

juulstar - March 27, 2018, 12:03 pm

I'd take the Blue Pill b/c new shit stresses me out and life is getting better for me right now.

Light - March 27, 2018, 1:41 pm

Can do all this, applied via the super HQ method using UserCP

SecretAchiever101 - March 28, 2018, 4:44 pm

I'd go with the blue one probably but because I am colorblind i'd fuck up and ingest the wrong one,after that cause the effect would be different than the expected I'd start considering the fact that the matrix is a matrix within a matrix.At that point I just say fuck it and go for a beer,who need pills to have a good time anyway

XzoRcisT - March 31, 2018, 7:46 pm

I'll choose the path that leads to less suffering,
plus.. I want to see how deep the rabbit hole is.

Thornzzz - April 1, 2018, 12:39 pm

I've never seen the movie, but I'd take the Red Pill cause fuck it.

Also, I'm pretty good in the lounge.

Night - April 1, 2018, 4:37 pm

I'll choose the red pill every time, because I want to find the truth.

plexy.timex - April 1, 2018, 4:41 pm

I'd choose the Red Pill because I am someone who likes to take risks and go on adventures. I'm sure that red pill would give me one hell of an adventure.

Also I know I don't meet the requirements, but maybe you can look past that as I can explain a lot in a private message.

carlos_matos - April 1, 2018, 10:44 pm

What pill do you choose & why?

None. I haven't watched The Matrix yet and I'm too lazy to do so. I was an OG Terminal-er -- my lounge skills are incomparable.

Either accept me or consider yourselves inferior

SupremeLV - April 1, 2018, 10:59 pm

I would take the red pill

Because I love the adventure and knowing what's next and discovering new stuff!

Deal - April 3, 2018, 1:02 am

SIM-3323508 - April 3, 2018, 3:03 pm

Welcome to Terminal my friends

Next wave of users will be added in 1 week

rl fennec - April 3, 2018, 7:54 pm

Finna pop the red pill. Life is too extraordinary to limit and not discover what's out there.

Spoiler ([Click to View](#)) Also because the colour red makes you hungry and now I'm craving a pizza.

W R T - April 3, 2018, 7:59 pm

What pill do you choose & why?: I would choose the RED pill, why? Because I would love to experience the 'other side' of life, you know? My life is pretty casual now, but to experience another 'dimension' in a way would be INCREDIBLE.

The BLUE pill, I wouldn't want only because I would be haunted knowing that I have lost an opportunity to experience another 'life', another way of living, endless possibilities.

Sincerely,
Mike

Eccy - April 4, 2018, 5:57 pm

I'd choose the Red pill, how could anyone turn down an opportunity to find out something you don't know? You can never know too much.

Cub™ - April 4, 2018, 7:51 pm

I'm about that red pill. I was born and raised in the lounge, this is what I was destined to do.

wit - April 4, 2018, 7:51 pm

Baked - April 5, 2018, 2:24 am

Who the hell in the right mind would ever choose the blue pill?

Humans have curiosity built into them; me included and I WOULD DEFINITELY TAKE THE RED PILL.

Shaggy - April 5, 2018, 2:46 am

I'll take the Blue Pill

Most of Earth is Water and We can't live without Water so I think that explains it.

ONX. - April 5, 2018, 10:39 am

The Red Pill. Reality is hard, Fight against it.

Kway - April 5, 2018, 1:02 pm

Red one, otherwise I'd just be another sheep in society.

netpulse - April 6, 2018, 6:50 am

"I recently purchased Terminal"

Well, wp buying a group for hundred of bucks (if not more hahaha) which no one cares about cause its a fucking pointless user-driven group on a forum.

N - April 6, 2018, 2:07 pm

I'm on that red pill, the story doesn't end!

Devsoft™ - April 6, 2018, 2:15 pm

I have been thinking about this before!

I would definitely have the Red One, I would love to take a look at coding involved to create all the simulations there.. ^^

carlos_matos - April 7, 2018, 3:32 pm

only pill i'm tryna take be the Xan breh

let me in

sssniperwolf - April 8, 2018, 8:06 pm

If I was in the same situation as him, I would want to choose the red pill and get an insight on reality but at the same time I'm not trying to lose everything out of curiosity so I'd probably go the safe route and choose the blue pill.

Polm. - April 9, 2018, 3:34 am

That would be a hard choice.

With the blue one you would get back to reality and with the red one you lose your normal stable life with friends and family.

I think I would choose the red one though. I like to investigate the truth and get to the bottom of things. Also I'm way to curious not to try it out lol.

Let's go down the rabbit hole. ?

Sketches - April 9, 2018, 11:34 am

Red pill, and heres why. Taking the blue pill means resuming your daily activities as if nothing has happened, ignorant of the bigger picture (aka being a sheep). Taking the red pill however means

that you acknowledge you no longer want to be part of the mass that follows blindly, which is a big leap for anyone who is afraid to get out of their comfort zone of being used to their surroundings.

Travelers - April 10, 2018, 4:11 am

I would absolutely take the red pill. The blue pill is something that represents staying in your current state of blissful ignorance and thus provides no true growth to either character or integrity. You never develop if you sit in your own bubble and reject the realities of others as if they are nothing. Swallowing the red pill is difficult, and making difficult choices separates the boys from the men, as it were. Owning your problems, facing reality and truth, and maintaining the honor to show that you can be wrong are all virtues the red pill can represent.

Ludicolo - April 11, 2018, 11:29 am

Neither, I like to stay in my own lane thanks.

usd - April 13, 2018, 7:51 am

Redpill. I would want to know the extents of reality and learn what I am absent of.

Neil - April 13, 2018, 8:31 am

I'd take the red pill. Only because it's more exciting than waking up and living a normal life. Fuck that.

Regulus - April 13, 2018, 1:17 pm

>> Regulus Official Terminal Application <<

- Hello there Mr.Regulus our almighty lord, what pill do you use?

Hello there Terminal, thanks for the kind question, I take a red pill for my heart so I don't die
Thanks now let me in.

Cooligan - April 15, 2018, 12:52 am

I'd for sure choose the red pill, I've always wanted to know what it's like going all the way down the rabbit hole.

Oh and plus I'd be perfect for your lounge group, and I love the Terminal graphics. ?

vad0x - April 15, 2018, 9:49 am

I love learning and understanding more about something and especially if i'm interested in it. I would risk it all to leave something behind. And who doesn't wanna see how deep that rabbit hole goes?

Red pill is it for me.

dragonking - April 16, 2018, 11:55 am

Morpheus, toss me that red pill. My life revolves around discovering rabbit holes and diving in head first. I would make a great addition to your group and have a great deal of knowledge in just about every category this forum offers.

device - April 16, 2018, 12:28 pm

I've taken all sorts of pills in my life but none achieve the effect of the Red Pill.

Punisher - April 16, 2018, 9:55 pm

Red.

I am ready to change my destiny.

Similarity - April 17, 2018, 8:42 am

I would take the red pill, reason being similar to others. Would be very curious and it would be a very adventurous journey.

SIM-3323508 - April 17, 2018, 8:17 pm

Riyu will be going through recent applications as well as starting a new recruitment.
