Thread: [E-Whore Experiment](#)

What's up HF,

I'm starting this experiment e-whoring.. Basically I have a real female friend who's willing to help me out on the picture/voice/ anything to make it 100% real and target sugar daddies.. So for example if they want to face-time I can have all of that setup. I'll be doing dirty work and she'll be providing me authenticity.. I would post pics but I told her this is 100% discreet.. I'm going to also hit up some of my sisters roommates some of them are strippers and hustle sugar daddies IRL ? So i'll see if they're willing to be a part of this ? In the long run we can setup dates in different cities, take the money physically or virtually , and back to business. I have some personal methods that i'll be testing out. Sounds good? I'll update if everything goes right... ?
