I always thought this was a sweet MyBB theme. I was using it for a little bit on another project. Thanks for bringing new content to MyBB!

Hi All,

Just wanted to share some updates with all of you. BootBB has been rebranded as TekBB with some new changes.

The new build is available now to download from MyBB Extend Section as Well as Tektove.

A huge thanks to panayot and everyone else for the support they provided during my absence. I am glad that so many people gave love to this theme as it has already reached over 14,000 downloads!

Tek Care,
Tekkie Da

What's the link? I've built several MyBb forums and worked with customizations in the default theme but that's looks good.
