(Mar 9, 2018 01:53 PM)?Sorry Wrote: [\[CITE\]](#) 1 account I bought didn't sign in on PC, the other account I bough has the campaign at level 41 and the paid version of the game. This is a good service vouch :)

(Mar 9, 2018 02:18 PM)Jonas. Wrote: [\[CITE\]](#) Grabbed a vouch copy.

First of all, seller is very friendly. One of the accounts I got had the Battle Pass, some legendary, epic etc. skins, 100+ vbucks and tier 39 in the battle pass.

Definetly worth the \$2.

Most of the accounts will be for PC, but PC and PS4 accounts are easier to get. There are a few xbox accounts but they are a lot harder to get. :)

A lot of the PC accounts work on PS4 if they're not already linked to a PS4 account. There's an autobuy via the link in the thread for random accounts and there is also another product on my sellly that has checked accounts(still random levels and vbucks etc) that already have the game. If you guys have any more questions don't be afraid to ask. :)
