My Honest Review:

- The ebook is detailed and you should not have any problem understanding/applying the method.
- It's short and straight to the point (4 pages total).

- Could use a bit more detail in the last section. I talked to him about a couple of things and he said he's going to add them in so future buyers should be good.

Overall: 7/10

I've seen similar methods before, but this is updated with most recent changes so definitely worth the buy.
