Get Paid Apps Free | Tweaked Apps | Flash Apps | Non-Jailbreak

Hi I'm @Bu Bu and I'm going to show you today how to get free paid apps, tweaked apps & flash apps without Jailbreaking your iPhone. This method have been tested on iOS 11.1 on iPhone 7. So if you have any questions or problems please contact me in this thread or PM me and I'll get back to you as fast as I can. Note that some tweaked apps or flash apps might not work on your iOS but it will inform you on what iOS's the apps work on in the description when downloading an app.

Requirements: Internet connection.

Full access to your iPhone.

15 mins of your time.

Step 1: It's an easy process and I've never experienced any problems using it. Make sure your connection to Internet is working.

Step 2: Open up Safari and go to [tweakboxapp.com](#) (I can't make a link as I don't have 50 posts, if someone is nice to post a link down below it would be highly appreciated)

Step 3: Click Download and a window will pop-up, press trust, You'll be sent to settings and in the right corner press install.

Step 4: Go to you last home screen and open the app. It will have an ad pop-up every time you open the app. It's just to close the ad.

Step 5: Now you could download an app, but we aren't done just yet. when the app have been downloaded go in to Settings-General-Profiles & Device Managment. Now go to Compagnie Marocaine and press trust.

Step 6: Enjoy free paid apps, tweaked apps & flash apps on your non-jailbroken iPhone.

I'll make sure to add more apps where you can get more paid apps for free, flash apps & tweaked apps. If you have any of your own please share them and I'll be sure to check them out. I hope this worked for you if not please tell me and I'll make sure it will work for you. Have a nice day and I hope I'll see you around.

Dont need to install any extra app

Just go straight here: <https://next.tweakboxapp.com>
