Thread: [Reply Notify](#)

Soldiercrimes - March 20, 2018, 10:07 am

Please add the feature so that if someone replies to a message you have sent in a thread you will get notified somehow. It's pretty hard to have discussions with people if they only reply once at the thread and then they dont see your reply. hope you understand what i mean Omni :p

Ps; dont know if this is even possible with MYBB but its worth a try i guess.

Riyu - March 20, 2018, 10:09 am

Omniscient is adding a notification system soon. For now they could use the subscribe feature that emails/pms them when there's a new reply on a thread.

M?xim - March 20, 2018, 10:10 am

I think this is likely to happen now when we have Xerotic.

Motusora - March 20, 2018, 10:10 am

yeah it's possible . i think this feature will be added soon

I think so too. ?

2073436 - March 20, 2018, 10:55 am

yeah it's so timeconsuming to look back at all threads you posted on

ARIANA - March 20, 2018, 11:45 am

Omni has stated lots of types he will not add an alerts system.

Good to hear. I'm assuming there is absolutely no predictable time frame for implementation on this?

Spoiler [\(Click to View\)](#)

So? Omniscient has said that he plans on adding this to the site, and from what I've heard, Xerotic is on the case.

?lex - March 20, 2018, 1:38 pm

I might be wrong but I think you can get this with HFX Extension..

Bluffer - March 20, 2018, 1:42 pm

It's something that will be added eventually. Omniscient knows its a highly suggested feature.

Thought it was off the list forever. But I'm glad they're considering making it anyway. Would save me a lot of time browsing through my posts.
