**The Villain** - March 20, 2018, 6:35 pm

Hi! I'd like to give back to this community.

My last giveaway got deleted, I hope this will not. ?

This bot is fully automated.

Steps.

1. go to [185.14.184.125:8080/p3ntagram.html?](#)

2. Follow @the.red.team3 | Bot requirement

3. Choose how many people to Follow/Like

4. Put your Hashtags in that fit with your niche. Example. | Format |

luxury,fun,cool,awesome,memes

5. Choose your Comments | If commenting.

6. Try to refrain from using the Account itself from doing anything but posting, as a spam bot could happen.

7. Wait! The bot will eventually unfollow all the users it has followed.

Troubleshooting:

Help! I press the "This was me" Login but it still isnt working.

Steps.

Retry 1-8 times

If still not working, wait two hours.

repeat

I'm spam blocked!

Steps.

Login to the Bot

stop the bot from running

wait for the spam block to be over.

Start again
