Thread: [Samsung Launches a Site That Can Erase Your Memory With Hypnosis](#)

Rsynced - March 21, 2018, 10:06 am

I personally did not try it and do not plan on doing so... Thoughts?

<http://www.samsung.com/se/unspoilme/eng/>

Quote:"Unspoil Me" claims it can "erase the memory" of a TV show you've watched, allowing you to watch it again for the first time.

Samsung's disclaimer:

Quote:1. "Unspoil me" has been created by Samsung Electronics Nordic AB ("Samsung") and allows you to take part in an audio experience with a 23 minute long self hypnosis ("the experience") produced by Fredrik Praesto, a certified hypnotist.

2. Take part of the experience at samsung.com/se/unspoilme/eng.

3. Before starting the experience I guarantee that I'm over 18 years old, fully mentally healthy and not suffering from any neurological problems or epilepsy. If not, I guarantee that I will contact a doctor before I take part of the experience. If I suffer from abnormally low blood pressure, I will also consult with a doctor before taking part of the experience.

4. I am aware that the experience (self hypnosis) could have real effects and I am prepared to forget the whole, or parts of my favorite TV series.

5. I ensure my sole purpose of using Unspoil Me is for its intended purpose, and I will therefore only think about a film clip or a tv-series which I will have the possibility to forget.

6. In order to take part of the experience, Samsung does not need any personal information.

I would like to vouch for this method. I no longer recall my name.

Edit: Nevermind, this is a waste of time.

Phixel - March 21, 2018, 10:37 am

Ima think about me, and my life. And see if I forget who I am, be back soon.

xf0xalz - March 21, 2018, 10:43 am

If I forget that I already saw this ? Is it an infinite loop ?

Feel free to report back.

dude my dick got stuck in the blender
did I follow the instructions properly?

SIM-1589588 - March 21, 2018, 12:17 pm

I didn't completed full session but I think it works little bit, ofcourse it can't remove your memory but it makes your mind calm and relax and once you see any video etc..it feels like fresh thing to you.

Calibur - March 21, 2018, 12:24 pm

I didn't finished it as well but i really felt relaxed after over 5minutes. It's so relaxing i guess i'll listen to it when i'm stressed out.

That's funny, serves another purpose I suppose.

Did it make you want to buy Samsung products? You need that new galaxy... ?

Tsukiyama - March 21, 2018, 1:22 pm

That voice is so relaxing, did it for few minutes.

This is kind of what I see happening to be honest.

I don't know if you would pick and choose the memories.

n31ght0 - March 21, 2018, 3:36 pm

btw i always forget what movie and it story i watch last time. i never memorize the movie i watch

DelziumTheProudWhale_temp - March 21, 2018, 3:40 pm

Posting here to come back later

n31ght0 - March 21, 2018, 3:40 pm

and yes hypnosis isn't real

borito80 - March 22, 2018, 3:57 am

Live for the first time great moments, what a wonder!

Korvo - March 22, 2018, 4:07 am

I think that it was a pretty neat experience. I only did maybe 10 minutes of it and I was super relaxed.

Had to take my doggos out, or I would of tried the whole thing, but maybe another time.

As far as hypnosis goes, I believe that if the person is open to the power of suggestion then it will work on them. Just my opinion.

Really awesome share though bro. Good looks!

Instructions unclear, hard drive was wiped.

Space• - March 22, 2018, 6:54 am

What if not only erases your favorite movie but also sends a hidden message that you should buy Samsung, not Iphone.

I'm in the same boat as you on this one, I tried it, and my body's never felt that relaxed and I fully

gave in, attempted to let it do what it was telling me.

Was weird, never done anything like that before. It's truly strange how much we have access too but can't directly see or feel until triggered.

Will admit, didn't work.

Gbulla - March 22, 2018, 11:22 am

Wow, this is pretty interesting. O_O

SIM-1729678 - March 22, 2018, 11:34 am

Not joking, it didn't work, but it relaxed me so much that I fell asleep.

hollowbat - March 22, 2018, 1:04 pm

I doubt it could erase long time memories, probably only really short term memories

Jimmie - March 22, 2018, 4:52 pm

Interesting experience tho I'm not sure if I expected something to happen but when a clip from the movie starts I'm confused for a second or two then I remember it.

But the movie I picked for this felt weird and I was confused when I first started watching it I clearly didn't forget the whole movie but my mind was kinda scrambled if that makes any sense.

Rsynced - March 22, 2018, 7:05 pm

Never expected this thread to be so popular. Glad you all are having fun! ?

why the hell you connected this to dream.

both are different world and context

test - March 23, 2018, 3:04 am

Can I watch this to forget ever watching it in the first place?

Nord. - March 23, 2018, 3:06 am

Really does this work? Im not gonna try but seems bullshit lol

Doesn't make it any less real.. Or else you can say being drunk isn't real, being in love isn't real, etc...

Periche - March 23, 2018, 9:01 am

I watched the video till the end and all i can say is that this is bullshit (what i was expecting anyways). It managed to get me relaxed though.

ZuGgY - March 24, 2018, 1:36 pm

Thank you for sharing. Will check it out when I have time.

Bodzio - March 24, 2018, 4:04 pm

I have tried it, you feel really relaxed but its bullshit.

PurlieuServices - March 25, 2018, 2:55 pm

This sounds like it could have ulterior motives.

TacticalChicano - March 31, 2018, 8:21 am

Can they erase the memories that cause me Anxiety every day, that would be great

Raguel - April 1, 2018, 8:48 pm

Can anyone actually confirm if it works? Tons of posts saying they'll come back, but none do...

Stefanzoh - April 1, 2018, 8:56 pm

Now they need to make one to make me forget meat\spin

Nik- - April 2, 2018, 6:02 am

OllyDbg - April 2, 2018, 8:29 am

I am sure this is a prank by Samsung.

I think that hypnosis is real but self hypnosis is not real.

Lor?d - April 2, 2018, 10:27 pm

So I didn't really forget anything but while doing this I was sat in my desk chair with headphones on in a dark room.

I followed everything it said and I did feel extremely relaxed and despite sleeping for almost 8 hours, waking up only a few hours ago, and being wide awake beforehand I almost fell asleep during this and am now very tired.

loner555 - July 15, 2018, 11:40 pm

IT DIDNT WORK FOR ME.....OH WELL

Bodega - July 16, 2018, 1:08 am

Definitely giving me this a shot, be back in 30.

merkulate - July 16, 2018, 1:33 am

Could be a good idea. But I'm against it. I wouldn't feel safe doing it myself.

Salacity - July 16, 2018, 12:05 pm

erm i dont want to risk forgetting my life 0.0

chadesque - July 17, 2018, 11:44 am

Didn't work for me sadly

ANT. - July 17, 2018, 4:01 pm

NataliaDavid - July 17, 2018, 11:03 pm

A bit strange but should be tried to see what happened :)

Jack Bauer - July 18, 2018, 12:25 am

Fuck it, I'll give it a try I got nothing to lose. I am fucking autistic-retarded as fuck anyway. What could possibly go wrong?

Edit: gave up after 5 minutes I got bored as fuck. :/ Oh well.

davidro45 - July 18, 2018, 7:41 am

I do not know, I would not try it, but maybe yes. I can not give a resounding no

Unkind_ - July 20, 2018, 3:50 am

Oof, to constantly be stuck in a feedback loop of knowing in a warm fuzzy sense you love the show enough to want to rewatch it, but you can't recall what it is. You could perhaps do this for quite some time and I can't help but get this strange image of a car spinning it's tires. Essentially, I suppose you would be doing the same thing to entertain yourself. Maybe I just can't see the appeal of wanting to relive an experience. If it meant that much to me, I should cherish it instead of trying to dump it out of my head. That's just my take though. ?

criminal?????????????? - July 20, 2018, 3:54 am

I wasted a few minutes out of my day to get dizzy. Great.

Muscleboy - July 21, 2018, 4:32 pm

Checking it out rn. Doubt it though.

SotirBay - July 21, 2018, 5:41 pm

I hope they make something like this for me to stop gamble

Shady. - July 22, 2018, 8:31 pm

I watched all 23 minutes, feel extremely good, clear in mind and relaxed. Not sure about the TV part of it but ill rest and try rewatching it tomorrow

SORRIE - July 22, 2018, 9:01 pm

holy shit that was actually a crazy experience, i feel like this might actually work

isu - July 23, 2018, 9:19 am

Littledean reenter men with probes come to mind

Zyber Linux - July 26, 2018, 7:08 am

I watched the video they give you. It doesn't do anything, although, I did feel tired after the video that's probably because I'm lazy.

BunnyBot - July 28, 2018, 4:19 am

it is interesting how all the same it will work and whether it will become dangerous for the majority, because in time such will be freely available for each person. I wonder whether it will reach such that memories can be saved

RyBragger - July 30, 2018, 11:53 pm

not going to try thatttttt >D >D

HankCallahan - July 31, 2018, 10:32 am

I tried it, but it did not work out. I think that it really should somehow relax. Later, I'll try again.

peterfoy - July 31, 2018, 10:40 am

I think Samsung has to get their staff under Hypnosis and see if they forget even working at Samsung for whoever made that donkey idea...

milejebac - July 31, 2018, 11:01 pm

Samsung can lie like a big motherfucker

BunnyBot - August 26, 2018, 2:19 pm

Now it sounds a little crazy, given that when checking this application a person still remembered everything, but with such progress as we are now getting at all, everything is possible but only in the future.

SellerMerchant - August 27, 2018, 12:27 pm

Wait what? This is some sc-fi stuff haha

Beamer Boy - August 27, 2018, 12:30 pm

georgieboy - August 27, 2018, 1:33 pm

Mind is blown! I forgot what a TV even was

Bibimbap - August 27, 2018, 7:57 pm

What are the claims behind this being scientifically sound? How does hypnosis induce amnesia??

SIM-974023 - August 27, 2018, 8:54 pm

Didn't forget the TV series but man is this relaxing. Felt great.

jooglord - August 27, 2018, 11:49 pm
