Thread: [Sort Listview with doubles](#)

Soldiercrimes - March 21, 2018, 10:22 am

Anybody knows how to sort these asc/desc?

Tried it but couldn't find a good solution to sort it.

I have not used this personally, but maybe you can use this:

<https://msdn.microsoft.com/en-us/library/system.windows.forms.listview.sorting.aspx>

This will put items that are added in the correct spot, not sort existing items.

Is it even possible to make that work with doubles? i thought it would only work with strings.

Why not just try it? Also, on the page it said that if you want to use your own sorting then you should use the ListViewItemSorter in combination with the Sort method:

<https://msdn.microsoft.com/en-us/library/system.windows.forms.listview.listviewitemsorter.aspx>

<https://msdn.microsoft.com/en-us/library/system.windows.forms.listview.sort.aspx>
