Huge vouch for Sugar and Confound.

I'm coming up on 4 months with Sugar and I've never been banned.

I've tried others and this is by far the best. There's no comparison.

Didn't this cheat get cracked and sold on a huge scale under the name "Destiny"

Confound - March 21, 2018, 8:48 pm

Destiny is the cracked version of this that is sold on 24 hour passes. BUT the cracked version gets you banned within 24 hours of use, is old code from maybe 5-6 months ago, and isn't developed by this person. The people who sell Destiny are "resellers" of scammers who aren't associated with Sugar.

This program is backed by a dedicated community/developer who is updating the code daily. Literally. There are hundreds of monthly paid subscribers currently.

Decided to give this bad boy a try, purchase the level 2 and I'm glad I did. It's one of the best cheats I've used so far in PUBG. I was really happy with all the features it included. So a big vouch for Sugarbot!
