Phone Call Spammer

Send hundreds of phone calls to a victim in just minutes!

This is only working for US and Canada residents only; I'll be adding more countries soon.

I'll only be selling 5 spots for now until I decide to sell more!

How does this work,

All you need to do is enter a phone number, and the amount of times to call the number and push start!

Once you push start, phone calls get sent instantly, and after 3-4 seconds, a new call comes through which basically leaves their phone unusable.

Your key is lifetime, and does not expire. This is a one time purchase!

Rules, You can spam the same phone number 5 times per day.

You can send as many phone calls as you want per day, but 100 at a time.

* You will not exploit or abuse our system.

If we move domains, your key will still exist and remain.

Abusing our service will result in your key being terminated and your IP being banned from our website.

Just bought this and had two of my friends help me test it out. They told me they got the calls within seconds of me sending it. Would be a funny gag purchase =)

Awesome; glad you're happy!

Calls come in super quick, and even if the calls are answered it automatically hangs up and another call comes in.

This is the perfect tool to use if you want to spam an enemy, or just prank a friend!

Very strange. I've had no one having problems with this.
