(Mar 22, 2018 10:12 PM)DavidNS Wrote: [\[CITE\]](#) My Honest Review:

Overall Score: 9.5/10

The ebook WILL make you money given you follow the steps. It has 3 detailed methods and 2/3 have very high earning potential.

Support: 10/10

I bombarded my man with questions and he was very helpful and knew every answer. Very fast replies as well.

Grammar: 10/10

Did not find any error or had difficulty understanding anything in the guide.

Detail: 9/10

Now this is the tricky part. He offers you 3 different methods basically 2 to get you started on the 3rd (at least how I see it). You can definitely use any of the 3 methods on their own and they will work. He has good details for each of the methods (some pictures too), but I think, and he already said he will be updating the ebook with all the suggestions by March 26th, that there are very few screenshots. Fairly easy and straightforward methods and you should not have any trouble using the ebook as is, but more pictures never hurt.

Originality: 9/10

Seen 1/3 methods before, but they do work perfectly fine!

(Mar 22, 2018 09:38 PM)evillair5 Wrote: [\[CITE\]](#) So, I just bought this ebook and after reading it 3 times heres what I can say:

The first method I had never seen it elsewhere and has a big potential

The second method I knew already and used to make some decent money from it not so long ago

The third method is probably the one with the biggest earning potential and seems solid

Unlike many ebooks I have seen which contains public methods I can say this one contains 2 high quality methods I had never seen before.

So this will make at least \$300+ a day right? and you should add more to the thread, what does it not involve? Etc? is there an investment? Plus reach out to The Appraisers for a HQ review tbh. I'll be on standby for actual earnings proofs not just a paypal balance.

My guide explains everything you should make that daily once you get the flow going.

If you wish you can standby for other users to report earnings.

I have some people already implementing my methods.

Will do, also wouldn't mind leaving you a vouch copy review, but also wouldn't mind waiting for earnings proof from others also. Any requirements of investments, etc? Should also post what this DOESN'T include. GLWS

So you can follow my two methods I outline & you wont need an investment you can just take that money you make from those two methods and invest it on my main method.

If you don't want to do that you can invest about \$40 and get about 110% ROI.

I outline how to do it properly and the smart way.

This is legit. I mean it is actually legit. If you think you're going to buy a 25\$ ebook and get rich, including mine, then you are just wrong. This has unlimited potential and the discord chat is full of people showing off what they're making.

Don't buy cheap ebooks, they are scams. Anything with any value will cost money.

For anyone hating on this, don't buy it if you don't want to.

I bought this a couple days ago with money I made from my trivia methods and I'm making enough to say don't fucking buy my ebook on trivia. This is way worth your investment and it will make you much more money.

I talked to OP last night and asked him why he keeps his job because I have seen proof of how much he makes doing this and he said "because i like my job". If making more than enough money from passive income along with keeping purpose to your life isn't ideal, then I don't know what is. Buy this before he ups the price as everyone in the support discord is requesting.

Hi Guerillas!

How easy is this for a newbie to follow and setup (scale of 1-easy to 5-hard)?

Also, do we need to worry about Paypal putting a hold on our earnings?
