Thread: [\[STREAM\] WatermelonHaze's E-whore stream for noobs](#)

WatermelonHaze - March 24, 2018, 1:01 am

Don't know how the hell to E-whore?

Come learn with some OG's

I will be streaming on some saturated traffic the next few weeks to try and teach some of the less fortunate SE Bambi's how its done. I've e-whore'd for around 4-5 years on and off. Started on Skype with VCW's moved over to Kik and i'd say i've probably made a decent amount since i started, not gonna drop any numbers or try to be cocky but i definitely have some skills some of you could benefit and learn from. Hoping some of you gain something from this stream, I'll update the thread and bump whenever stream is online ? Hope to see you guys tuning in for some shits and giggles and hopefully some free money.

Will you stream again any time soon?

JawlllyR0ger - March 24, 2018, 10:45 pm

If you guys are interested in seeing shit like this, I may actually whip up a stream myself;

"Not trying to brag" but I hauled \$240 in AGC today, was a pretty solid day. I'm sure lots of you earn more than that, but this would be to help the noobs, as OP intended.

Yeah , I would be interested. Since I am bored as hell , and I rarely see people on this section stream anymore.

Let me know if you stream.

Hope you are back online and streaming again.

I'll definitely look into it tomorrow, I plan on grinding out a bunch of \$. I just gotta figure a couple things out, such as where I'm going to stream to, and how I'll deal with AGC without showing claim codes live, for that however I may just do all the emails via my phone.

Cool I'll definitely look into and set that up tomorrow, other than that just gotta download Snap on Bluestacks or Nox or something, cause I've been doing it off my phone.

Sounds tedious, but with auto complete and shit, I literally copy and paste and tap the screen like
