If you can, My a sig that looks similar/good to my profile picture. Don't stretch it out and say boom done.

I got it robotic and the colors most be Grey/Green/Purple. If you can make it pixel(ly) than that'd be great!

Thanks in advance, I'll give a +1 rep when done! :D

DonutDony - March 24, 2018, 6:19 pm

Will give it a try,what exactly do you want it to say i didn't understand?

Headless - March 24, 2018, 8:18 pm

Just make a Headless Horseman signature, you can use any color you want. Just make it look good!

CraftyBot - March 24, 2018, 8:44 pm
