Can't send money from eWhore PayPal to Personal Paypal..

should i use a vpn?

do i need a card linked to my ewhore paypal before sending money?

SIM-3627838 - March 26, 2018, 4:14 am

should i use a vpn? I do but people don't recommend it

do i need a card linked to my ewhore paypal before sending money? No, just a phone number & email confirmed

Wait 24 hours without trying to send the money and you should be good

If you are getting an error most likely you wont be even able to process the transaction without calling paypal.

But considering you've used fake info on account I doubt you'll be able to do anything.

It's too late now.

Why can't you? What's the problem?

Jsju1234 - March 26, 2018, 12:18 pm

I hadn't thought of a google voice number. That's a good idea.

did you use it on paypal?

Krimbo11 - March 27, 2018, 6:06 am

Wait 24 hours and try again. Happens to me every few transactions, and don't try and shift too much at once.

Call, say you're transgender i've done it before when I couldn't send to my main. "Are you Sarah? Yes" lol

R0cketboy - February 28, 2019, 3:25 pm

Hey, I have this problem too. Did you solved this problem?

Sitez - February 28, 2019, 5:52 pm

Here I'll tell you how to use PayPal for eWhoring.

- Get an actual female, whether your girlfriend or family member just get one of them to enter legitimate info into the account and link her bank.

- Use this account now. Verify everything. I think you need a bank account attached to send, could be wrong on that one though.

- eWhore to your heart's desire. Keep a log of transactions...receipts if you will. More on this later.

- If they halt it have the girl call them and verify everything yada yada yada. Have your story bulletproof before even calling them. I've never been halted but I'm sure they will ask. Tell them your a freelancer doing some modeling for clientel, it's your side job. Kinda the truth. (Obviously the girl will be talking to them). They shouldn't ask more then that.

- If they ask some shit about taxes here's how it goes...if your a freelancer in the US you don't have to pay taxes until you make 400\$, so if you're under \$400 easy pz. If your over it still won't matter because freelancers just submit their transaction mounts quarterly. This is why you keep logs, so you can submit them. If you actually wanna pay ?

- Another loophole within freelancing is say you make \$5,000 and spend \$4,700 on business cost, guess what? You don't have to pay taxes because your net profit is only \$300. (you can look up what qualifys as business expenses).

- This is how I do it anyways.

In my opinion PayPal needs to chill out, their gonna lose alot of users because their constantly increasing bullshit and privacy invasion. I use your site, you handle my money and make money off me. Done deal. We both win.

That's how it should be.
