Thread: [Swap rates for SDMM](#)

Anyone know the swap rate? Currently found a method which is over 200k a hour and don't play DMM and will just make new DMM accounts to fund it.

Anyways, whats the swap rate or selling rate?

swapping is bannable this season, meaning you'll get banned in sdmm and in the real game

selling & buying gold is bannable yet i've been doing it for years without a ban

True, RWT is not allowed and people still make a shit ton of money by selling gold.

True, so is Muling

But players find ways to swap sneaky tho.

Would not recommend it haha

Don't care, level 3 accounts with shitty stats, thanks for the heads up.

Anyone?

SDMM / Real game is a bit different.

Probably easier to track ~ 200 players per server or less, versus 60k.
