Aside from account availability and manual replacement time, pretty good service!

skylarz - May 1, 2018, 2:25 pm

Look dude, I've messaged you twice already. I've bought lifetime gaming accounts almost a month ago and I still haven't received a single UPLAY or Origin account. I'm sorry about posting on the thread but I have nowhere else to get your attention. Message me so we can discuss this.

bunnysnacks - May 2, 2018, 12:53 am

korsit - May 2, 2018, 10:56 pm

cocodrilo45 - May 4, 2018, 5:48 pm

any plans on adding sling tv?

Farfetch'd - May 5, 2018, 9:23 pm

Says exactly what it does, offers online packages for accounts, after waiting ~10 hours for my details to login to arrive I promptly logged into my account.

Activated my token and started going through the different options for streaming.

I tried to login to each account and only 1 of the 5 accounts offered actually works. (Netflix accounts being out of stock) So I had to wait another ~10 hours for a new account to become available.

Sadly I forgot that majority of the streaming services you need to be located in the USA for it to work. Not having a VPN I was a little saddened. However that's my problem.

End result. If you live outside of USA. Please make sure you have a VPN or some other way to get around the block. Wasted \$16AUD (I'm not that tech savy, probably is another way around it)

However it does what it says and looks like an alright product.

UnknownContent - May 5, 2018, 9:28 pm

I have been waiting a very long time for this service to offer my free spotify premium upgrade & after reporting that gaming accounts weren't as he said they were, I haven't received replacements.

When I go to request a new log in or account, I get nothing, or it says that it's out of stock all of a sudden.

He was chatting with me about the issues for a bit, but no actual outcome/resolution was given to me.

Lufasu - May 6, 2018, 12:03 am

In gaming packages, what does "HQ Origin" means? what games are included?

Purchased a spotify ACCOUNT upgrade, almost 48h, still pending, no reply on skype...

Boostd - May 16, 2018, 7:42 am

I asked for a replacement Spotify by request cos the account was not premium. Next thing the spotify option was gone (vanished).

I purchased allot of lifetime accounts. Most of them don't exist or have run out.

This guy is selling items he can't provide or keep up with. He does not like you saying anything despite trying to communicate with him via Skype and him ignoring me.

On here he threatened to delete me from his shop if I continued to spam (complain)

Quote:Please let me know your name on skype and send pms.

We do not give support on the thread.

We have the right to remove your subscription if you keep spamming here :)

Thanks!

I don't have access to PMs at the moment which I explained to him. But even though him knowing this he was not going to help.

However when I was communicating with him on Skype to purchase something he was all to willing to help.

It's the truth and I've seen enough complaints after my posts for me to STFU.

As it stands at the moment...

Spotify - REMOVED COMPLETELY.
Origin - NOTHING.
Uplay - NOTHING.
Fubo - NOTHING.
Nfl - NOTHING.

If he can't get them or have them at the moment. Communicate and let your customers know. Don't sell them sh!t you don't have in the first place.

Me too. I have bought a lifetime package for gaming almost 2 months ago and I have yet to receive a single UPLAY or ORIGIN account. Multiple attempts of trying to reach him has failed.

He states on this OP not to complain here. Well I guess he'd like that to happen so that he is not exposed to the fact he takes peoples money and does not deliver.

He's probably making money with other things to be bothered with us. All this guy needs to do is be honest and speak to us. I'm not unreasonable and would be willing to resolve this easily. But he just does not bother.

He is still selling Spotify accounts on his web site. But when I reported mine as non premium. He just removed the whole spotify option and not replaced it. So I have no spotify on my All-In-One

account.

Personal advice to anyone.... STAY AWAY

Accounts4U - May 20, 2018, 6:00 am

When will people learn that any seller offering lifetime has no intention of seeing it through. People moan when they get offered 2/3 months warranty but that's what realistic sellers offer.

swavy - May 20, 2018, 8:27 am

If you can stock VyprVPN accounts I'll buy a lifetime one of those.

We are not talking about replacement accounts, we did not get one in the 1st place
I am still waiting on FUBO and VyprVPN accounts etc.
