Thread: [anonymous texting sites???](#)

tattoooguy17 - March 29, 2018, 9:33 pm

does anyone know of any anonymous texting sites or any high quality apps but would prefer a website. thanks for your time tattoooguy.

You can checkout textnow.com but you should worry about being anonymous yourself too not just the website.

Textnow is good just use an offshore VPN and other security depending on if what you're doing is highly illegal or not.

Correct, your OpSec also needs to be handled before you actually start "Anonymously Texting"

Look into VPN's that do not keep logs..

tattoooguy17 - March 30, 2018, 4:24 pm

im using someone elses info for HMA and im using a virtual machine. do you think its secure?

kayla_90 - April 2, 2018, 6:18 pm

That should be goodmbut please keep in mind that most free vpn keeps logs.
