My MAL: <https://myanimelist.net/profile/DeadRationale>

I didnt include shity animus because i didnt like them so not including them.

I just watched couple eps of Darling in the FRANXXX (mecha action romance) and it was dope, but after 5th episode there was less fights, more eps about charaters "feelings" thoughts etc boring

but its first EP was really STRONG, i couldnt say no, seems that was clickbait EP

Recommend me something strong?

You do know that the reason for that thread, which is stickied, is so that this forum isn't littered further

I was about to suggest this one myself. If you want to pleasantly kill some time I can recommend this to you OP!!!

You seem to be big into shounen anime, which I very rarely watch. You should give [Rage of Bahamut](#) a watch. I think you'll like it based on the content on your MAL.

Just checked your list:

There's just so many good anime you missed. Let me share my list with you.

There's especially "Zero kara hajimeru isekai seikatsu" missing from your list. its a must watch psychological thriller anime. I got goosebumps on each episode. Try that too.
