Thread: [Will pay to write simple program.](#)

dogssa - March 30, 2018, 8:27 pm

Hello, looking for someone to either finish my current program or re due it.

Let me know if you are interested. The program consists of Opening a txt file through streamreader then sorting the file into list boxes and taking certain data from those list boxes. I have managed to write the code up to the point of taking the certain data out of the code.

You can't hire people here. You'll need to post in the marketplace for this. ?

Luckily this is easy... Someone here will probably do it for free.

I can do it, PM me if you still need.

Woes - March 31, 2018, 12:44 pm

I can do this, send me more information.

Karnaugh - April 1, 2018, 12:32 am

I can do this if you are still in need. PM

Hawk HF - April 1, 2018, 4:55 am

I don't think this guy can PM. Don't you need 25 posts before you can do that?

severos - April 1, 2018, 5:41 am

Contact me with more details and I'll see if I have enough time for that.
