Thread: [Opinions on Initial D?](#)

JawlllyR0ger - April 2, 2018, 5:03 pm

I've seen a lot of people hating on Initial D lately. Sure it's "oh wow drive animu big drift so kool." But I really do like it.

It's actually a really good anime, and has an amazing soundtrack.

What does HF think of Initial D?

One of my all time favorites

Still have yet to watch it (sorry Japanese, will happen eventually I promise)

Initial D is hype all around. the soundtrack is GOAT. if you don't mind older animation style watch it.

Fun fact, Initial D was my first ever anime I watched. I borrowed the DVDs from the library near me—I was into cars—I really enjoyed it but I never considered it an Anime as I was only a child.

It was great, I use to go back there every week to get the next season.

This actually reminded me to go finish it. Started hella long ago and forgot about it.

I dont know how good it is but the beat is fire

slutsicle - April 10, 2018, 9:40 am

Haven't watched much of it but might for that eurobeat.

The first 3 seasons were topnotch. The last ones had similar story lines and hence seemed repetitive to me.

Ignore the haters, its a good anime with a sick soundtrack.
