Thread: [Add vouch begging as report option](#)

Biggy - April 3, 2018, 10:47 am

Used to be on the report options, but it's no longer there.

Vouch begging happens pretty often.

Report it as Marketplace Violation and "Vouch Begging" as an additional input. This should be sufficient for the Staff to take the required action.

I know there are alternative ways to do it. Asked for it to be added as a report option as it previously was.

good idea, specifies the issue quickly for the staff

Seems like a simple yet efficient addition. I remember it previously.

I won't make a huge dropdown list.

Exactly why you have the "additonal input".

Staff would see the vouch begging anyways. You have to think logically. When you report a post Staff knows site policies. 99% of the time we immediately understand the violation looking at the post. Adding a ton of drondown options only confuses members and Staff.
