Dude you don't know why I joined so you can't jump to conclusions I joined because I wanted to be in the community. Yes I posted that but that's on exploit.in also I was looking around and getting familiar with community before asking that.

Danny Khalifa - April 5, 2018, 12:22 am

Do you guys argue on why somebody joined hf?

qwertytestg - April 5, 2018, 5:46 am

well, I can give you a tone...

of ebooks about either:

- a. business and real money earning... that takes time and effort and hard work and...
 - b. some ebooks on psychology and how to find sugar daddies/mommies that's your best choice to become rich fast...
 - c. ewhoring and PPC CPA and... marketing and "selling" ebooks
 - d. ransomware building and spreading ebooks
- some basic fraud ebooks

other than that you don't have many options...

you cant just look for ebooks and information on how to become rich in seconds

your only choice is to win the lottery...

statistically speaking you have much higher chances of Being killed by a vending machine. (1 in 112 million) then win the lottery so... you do have some limited choices and please never buy a lottery ticket you'll very likely!!!!!! only make the rich asshole that benefits from the poor richer...

so, believe me, you won't get rich easily... you'll either have to become an ewhore-sugar baby/... either work hard study hard and maybe! you'll get a fortune...

statistically speaking so...

but hey if you just wanna pay rent/... you can earn well with ewhoring... contact me and I can give you a tone of books and tools and guides and... I have a lot of

experience lmk...

or you can try paid services like hackforums .net /showthread.php?tid=5817667 or...

but you still need to work money doesn't grow on trees
and shit becomes saturated in seconds in this world... so if there is an ebook about fast money
making by the time you'll download it's probably already be saturated af...

Mr Meeseeks - April 5, 2018, 5:47 am

None of those free ebooks will work well if at all, you have to do some research yourself.
