Thread: [\[HQ\] Omega's Smart Contract Service | Blockchain Programmer @ EU | FREE VOUCH \[CHEAP\]](#)

alekakoC - April 5, 2018, 10:15 am

Greetings everyone,

I present to you my Smart Contract coding service. I can create Smart Contracts as a token solution & for other purposes as well. I have been working as a freelancer Solidity programmer for the past year & I have coded numerous smart contracts handling land ownership, game logic & digital asset ownership to name a few. I can create ERC-20, ERC-223, ERC-777 & ERC-721 among any custom-knit solutions you may require.

Contact me with details regarding your token to receive a personalized quote! Smart contracts start at a mere Franklin, \$100.00!

Skype Name: Hecacopter | E-mail: partablaka@hotmail.com

Payment methods include BTC & ETH

As a presentation of my skill, I am offering a smart contract for free to an Ub3r member to prove my abilities.

Haxorus - April 8, 2018, 2:39 pm

I have worked with him in the past and I can definitely say his code is solid. Vouch from me (..for whatever it's worth) ?

User is professional, I recommend an upgraded members who knows what they are doing take this vouch copy.

?Mystical - April 17, 2018, 2:30 am

I am interested in this let me know if you still have a vouch copy, if works out we will have a long term relationship.

scubasteve1234 - June 14, 2018, 9:46 pm

Lol ????? anybody can do this, literally takes maybe 20 mins, look it up on youtube, and crypto and ico is dead
