Thread: [Where to watch the new Tokyo Ghoul Season?](#)

Lakai - April 5, 2018, 1:07 pm

Hey guys,

I googled and found that it's streamed on Funimation, but I can not seem to find it (says season is unavailable). Is it only for premium users?

ORK24 - April 6, 2018, 3:51 am

Not sure if they do things like Crunchyroll and only let premium users view the episode, and after a week, the episode is available for free members, with ads.

You can find the episode on sites like kissanime, or torrent it (if you're familiar with torrenting anime)

Currently watching it on kissanime, I don't believe its out on crunchyroll yet, even for premium users.

Kissanime and horriblesubs.info to download it via torrent.
You want at least 720p anime and nothing less.

you can bingewatch tokyo ghoul on Watch Anime Online, Watch English Anime Online Subbed, Dubbed or <http://kissanime.ru> they both are the best online anime streaming services. one recommendation though:

select the openload server on Watch Anime Online, Watch English Anime Online Subbed, Dubbed it works a lot faster that way. ?
