#4 HF's Unofficial Interviews By RealMafia

30/3/2018

User: [Crystallize. - uid=3125649](#) Me: Hello and welcome to HF's unofficial interviews sir.

How are you today?

Crystallize.: Hello, Glad to be interviewed,I am perfectly well, what about you?

Me: I'm fine, thank you.

To begin with, let's start with your personal life if you don't mind. How old are you, do you have any hobby and do you have a job?

Crystallize.: I am around 23-26 y/o , my hobbies are playing computer games, messing around with SE, I currently don't have a job.

Me: You joined HF back in 2016. Could you tell us why you joined this community?

Crystallize.: I mainly joined because I was moderator in a CS:GO cheat and it was being advertised in HF so I wanted to give an extra support to people asking about it etc.Most of my posts are in the CS section but the section had too many toxic people and I hoped into other sectors then I realized there's a lot to learn so here I am.

Me: You are currently in 2 community groups, Terminal and Unity. Ever joined other groups?

Crystallize.: Yes, I was in almost all groups since I joined (2017-2018 groups). But most of them got sold.

Me: You are a Leader in Unity. What's the Group's Leader job?

Crystallize.: It's really a hard task because I have to take care of everything, members,projects,recruitment etc.Unity is most exclusive group in HF at the moment we have never had more than 10 members(currently we have 5) and I try to keep that intact.

Me: Ever owned an HF Group?

Crystallize.: Only owned a SF in Torque.I have never owned a group.

Me: Most HF groups cost thousands, why that? And is it worth it?

Crystallize.: Groups back then were GOLD.But people selling BUYINS, buying groups and selling them in less than a week ruined the groups for everyone.I'd say back then they should've worth more than 8K+ but now 3-4k is max what a group should be worth.

Me: But why they're so expensive? I mean, it's just like a user title..

Crystallize.: It doesn't matter, the groups are not to be looked as userbars, groups are supposed to help HF with the talented members by contributing in the subjects they specialize.

for example Unity is a hacking group we focus in the hacking subject, we contribute in that field.Each group specializes in something.

Me: You're an HF Mentor too. How did this happen and why did it happen?

Crystallize.: It was unexpected.I'm not supposed to talk more about it,sorry. :x

Me: Could we know why it happened? Why Omni chose you?

Crystallize.: He saw potential in me probably that's why.The process is unknown but that's just my guess.

Me: As a Mentor, don't you think that some other Mentors abuse their powers sometimes?

Crystallize.: Not really, all warnings issued by us are most of the time accurate, we are new to moderating we could make some mistakes but not one mentor abuses their power.They would be removed immediately.

Me: Who do you think should be a Mentor/Staff?

Crystallize.: Well that's up to Omni himself, but there are people out here who have the potential.

Me: Could you name some?

Crystallize.: I think Maxim/Charger/Makaveli/Riyu are doing great job as Mentors and they could have potential to become staff on HF but again that's up to Omni and I think HF doesn't need any new staff anytime soon.HF is currently perfect with Mentors,staff and the new admins.

Me: Who's your favorite Mentor/Staff?

Crystallize.: I love all of them especially Eagle<3

Me: If you don't mind me asking, what are your future projects?

Crystallize.: I have a lot of projects in the table just waiting to pick the right one.I am planning to release a web scanner in the name of Unity soon this is the only project I can talk about for now.

Me: Any last word? Any shoutout?

Crystallize.: Thank you for having me, I'd like to give a shoutout to Elitas/Armada/Biggy/Xerotic/Eagle/Views/Razor and Riyu, you guys rock!

Elitas - April 6, 2018, 9:35 am

Thanks for the shoutout Crystallize. ?

Cool interview, just make a point that asking people who they think should be staff and stuff like that isn't a good idea.

Also you shouldn't include answer to questions which he said he's not allowed to talk about it, as it offers nothing to the interview. But still, cool interview and a nice read. ?

Pretty sure we did have this in the HF news, it happened to me once.

Don't think it happens anymore, though.

Cool interview, I'd love to see an interview with a blackhat/whitehat hacker based on a specific case and how it went down.

There's only 2 questions similar to last interview.

There's around 10 more questions.

Please read the whole interview before commenting.

Boring yes, but it has potential. He at least tries to make it entertaining, and it's been a while since I've seen one of these threads anyway.

You should get that flamer award, you do it so subtly concealing it as banter but boy does it sting.
Also OP, just open up youtube and look for some fun interviews, don't copy their style but try and adapt them to a text based interview, they're a tad different but I'm sure you'll work out something fun. Good luck.
