feeling bored so might aswell make this a service.

basically i can recovery 99% of comcast accounts, doesn't matter what state the account is in (active / inactive, no services)

requirements:

username/email/account number

would prefer having some info about the account but not necessarily needed.
(name on file, address on file or phone number on file)

price per recovery: \$20 btc / crypto

will recover the account for you within 48 hours or else a full refund will be issued

pm me.
