Hello.

Seller was understanding on the part that I wasn't able to pay for it fully, and agreed to hold some codes for me, and does accept any crypto if you have to pay with (maybe pool them together). Fast reply's to messages and as you can see by their account, a very old and trusted HF member.

Will update when I pay next week and have a chance to use the account and code.

Can definitely recommend. :D

The thread is 8 months old. new design with new price is underway. consider \$100 for now.

(Oct 30, 2018 07:39 AM)realTr0pic Wrote: [\[CITE\]](#) WARNING

I purchased an EC2 account from him and less than 4 hours after the account was acquired - it got suspended.

I did not actually use the account for anything nor change any details.

Now the user is refusing to issue a refund.

I will be opening a scam report soon.

EDIT: <https://hackforums.net/showthread.php?tid=5901485>

Next time. Learn to read the terms on my thread. I don't know what you did. once you have the account. it's yours.

but again, if I believe you did not violate AWS TOS. I will as a gesture of being a well-established seller, will replace the account.

I gave the fuck in the post above already. I won't do it again. and next time you want to piss off. find a toilet, not a reputed seller like me. because I'm a professional seller and this forum has a better marketplace from other forums and we don't need losers like you who open a dispute on all 5 contracts they opened. I know HF doesn't take part in deals. but seeing the way you are violating the contracts system. you should be banned.

also, I always stand my words and hold my part of the bargain. ?

You're closed. but these might be helpful for others.

I do not advise that. because that's a bad practice.

The account does not expire but if you violate AWS TOS. you will be suspended/hold. and yes, \$150 credit code will usually last for 2 years.
