Thread: [FL studio A\\$AP Rocky Remix](#)

qbOFFICIAL - April 9, 2018, 6:15 pm

Hey guys so Ive been posting my videos here for a little bit now and have been loving the constructive criticism I get here.

Its always the most real

But anyways, heres another video I made?

I really tried to up the production quality on this one so let me know what you guys thinks
THANKS

[VIDEO HERE!](#)

Who the hell taught you how to eq lmaooo. Could've done with 2 bands and been done. I loved the way you flipped it. Was pretty dope. The synths you use clashed with the vocals at parts because they were really bright and high so they were cutting into each other which resulted in your drums not sounding to how they would be able to sound.

Only issues with the actual song.

The video though. You can process the audio on the video easily to remove all that white noise and static.

Good stuff though.

Imao Honestly had no clue what I was doing there. Just tried to make it sound as best as I could
And Yeah I dont know why I dont use some kind of noise gate in premier for the static.
Thanks though.
