STOP GETTING SCAMMED BY THOSE "TIPSTERS"
LEARN HOW TO DO EVERYTHING YOURSELF
NEVER DEPEND ON NOBODY, MAKE MONEY YOURSELF

WILL NEVER GET SATURATED

VOUCHES/REVIEWS ([Click to View](#))

(Apr 11, 2018 03:02 PM)Mommy??????????? Wrote: [\[CITE\]](#) As part of writing this review I would like to say I have received a vouch copy in return, now onto the goods!

Also some background on myself, I dont do much sports betting because I dont pay attention to sports but have spent a hefty amount of \$\$ joining groups or paying for lineups and won/lost money but overall came out positive. Have almost 0 knowledge on all the players/teams I was betting on (I know its not good, but idk I get more interested in things when I have some money on the line).

My initial thought on this ebook is WOW. Its not a typical ebook thats just quickly put together by the user in order to make some fast cash. Time was taken to write out everything down to the introduction. Without myself giving away too much information on the ebook itself, the user makes sure to include knowledge to help any sports betting person from novice to advance. This was more perfect for me than someone that is more interested than the sport itself that have a deeper knowledge of the sport than most would. Short and straight to the point on how to earn some money. Keep in mind we are betting so absolutely anything could happen. But if you are just looking for a safer bet to make, go with this ebook.

Will be depositing some funds into a betting account and use the strategy and methods talked about in the book and will update the thread on how I do :) Thanks for reading and goodluck with the sales!

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Product: -> [\[SPORTS DOMINATION\] <- MAKE \\$\\$\\$ RIGHT NOW! ||| --> #1 SPORTS BETTING METHOD! <--](#) by "testaccountplsignore" (Proxy selling for "Kwast")

This eBook contains 1 method and 10 pages.

Before I get into the eBook itself I will quickly go over some other relevant things. As always, I did find some grammar mistakes here and there. I saw multiple cases of fairly weird grammar in this eBook, though it does not hurt the quality of it overall. Of course, I would recommend you take a look at it so it becomes just that little bit better. Outside of that, I do overall like the design of this eBook. The organization and setup of it is fairly good. It does include a lot of text though, and I feel perhaps it could be a bit cleaner looking from a design standpoint, but it is far from bad.

Now onto the eBook itself. This is definitely aimed more at people new to betting and not so much at veterans of the betting world. But that is not at all to say that people already experienced with betting cannot get any value out of this, I believe they can. Now the first 5 pages of this eBook basically just cover different betting types and how to calculate odds etc. it covers in detail what types of betting odds we have around the world, how to calculate them all, and how it all works more or less. Now if you are experienced in betting you won't have much use for this, but it is of course nice to have there either way.

Now after this the eBook starts covering where you can bet. It gives you multiple options for betting sites to use, including crypto based sites as well as "real" money sites. You can of course use other sites than the ones mentioned in the eBook, but it is nice they give you all these different options either way.

After this is where you get the "real" value out of this eBook. The eBook tells you about 3 betting tip sites where you can get all your tips from. You can choose to only use one of these or all of them, depending on your personal preference. The eBook also covers how and where to find the FREE tips on each of the sites, and what sports they cover etc.

The last few pages of this eBook covers how you can/should bet. It briefly covers how you can put money in on a crypto based site before showing you the formula they advise you use when betting. Be it on that site or whatever site you choose to use. It is a fairly nice formula in my opinion, and one I might even start using myself. According to the eBook using the formula provided in conjunction with the free tips from the sites listed will quickly start racking up your profits. though I have not yet tested the formula myself, I can see it working quite well.

Personally, I did betting for a few months last year and had some decent success with it. I decided to go away from it due to the inherent risks that are just a part of betting overall. But with this eBook I might go back and try my luck once again using the information and formula included here. Of course, it should be mentioned this is betting, and there is never any guarantee you will make money from it. If you are extremely unlucky you can just lose 100 bets in a row and lose all your investment money accordingly. So please do be aware of the risks before diving into it.

Due to the excessive amount of information on display in this eBook as well I feel the price is overall fine and justifiable.

Final Thoughts

To OP I would suggest you fix the grammar mistakes here and there, and also perhaps consider restructuring the text in some places, to make it look cleaner and overall more professional.

If you are considering purchasing this then you will no doubt learn a good bit from it overall. If you are a novice wanting to get into betting for the first time then this will no doubt give you a lot of value and potential profits as well. If you are more of a veteran in the betting space I still think the tips and tricks listed can provide a good amount of value if used correctly and properly. In the world of betting eBooks this is an alright place to start ?

We look for higher reputation members to vouch for our product, however since you will be once of your first customers we can provide you a good discount ?

allesbaba - April 10, 2018, 12:39 pm

Hey, can I get a vouch on this? I bet regularly and I could leave a nice review on it.

Thanks

Konstantinos - April 10, 2018, 2:45 pm

Thank you very much @Mommy for the review!

We got one more review coming later today for you guys.

Very detailed reviews so you guys can see that this is not a typical one page ebook.

Very well-explaining and very profitable.

Theocritus - April 12, 2018, 9:01 am

Before I begin my review, I would like to thank you for giving us ("Appraisers"), the opportunity to review your eBook.

Konstantinos - April 12, 2018, 9:09 am

As everyone can see, we have detailed reviews by two members.

Pretty sure there is no need for further vouch copies apart if you have over 1500 rep and you are a very good writer.

Thank you guys for your interested, let me know for any questions or help you may need :)

Horus God - April 12, 2018, 12:39 pm

Just Bought Product, let me try it and see how its goes ?

Konstantinos - April 12, 2018, 4:25 pm

Thanks to everyone who is showing interest to our product!

Make sure to reach out to the support if you have any questions.

Konstantinos - April 13, 2018, 3:28 pm

Thank you guys for purchasing! Make sure to post screens with your earnings!

Someone just purchased and then instantly opened a deal dispute (PayPal chargeback).

Just letting him know (no idea who he is on forum) he has been blacklisted from our store and he will lose the dispute.

Thank everyone else who follows the rules and does the right thing.

So, to the person who charged back for no obvious reason, consider the claim already lost ?
