Thread: [Cant access avatar gallery on mobile](#)

Biggy - April 10, 2018, 4:36 pm

For some odd reason, I cannot chose an avatar from the galleries that I get on my PC.

This is what I see:

[\(Click to View\)](#)

Also, what's in that gallery is just members avatars:

Can confirm it shows the same for me on phone.

Edit:

Im dumb.It's the only gallery.

What kind of reply is that lol? If I'm having an issue, I want to:

A) see if it's just a me problem, or if others have the same thing, and if it's just me, be able to fix it or B) report it so that Omniscient knows and can work on it.

Even on PC that's the only gallery?

What a failure both of us are!

Down there is the "upload avatar" section.

That is correct, yes. Not sure why it was changed.

Oh, alright. This isn't just a phone problem then, Omniscient is probably doing something with the avatars.

I'll go ahead and close this then, I'm sure it'll be fixed eventually. Thanks.

Oh WTF is everything broken on HF this week? Holy hell! Where is the gallery?

EDIT: Fixed. Unreal.
