Thread: [Epic Games/Fortnite account cracker & Sentry MBA config](#)

?K47 - April 10, 2018, 5:23 pm

Just finished coding my epic games/fortnite account cracker. Proxy supported and hits around 200-300rpms (yeah not the fastest but it hits 100% so who cares)

Price: Sold all available copies, will re-post in the future if I decide to sell some more copies. Thx all who purchased.

I also have a freshly updated Sentry config method for running Epic games accounts in Sentry MBA that I am willing to sell a few copies of, if interested just contact me on Kik or Yahoo for the fastest reply
